## BURGLAR ESCAPES AT PISTOL'S POINT

### ATTEMPT TO ROB HOUSE FOILED BY OWNER

**Sudden Flash of Lights Surprises Intruder Who Draws His Gun**

A BURGLAR, probably more than one, last night paid his respects to four homes in Glendale. An attempt to burglarize the new home of Contractor Frank C. Butterfield at 1325 North Central avenue about 8:30 p. m. was frustrated.

Mr. and Mrs. F. C. Butterfield, who had returned a short time before from a week-end trip to Lake Arrowhead, had retired in a small summer house about fifteen feet from the rear of their residence. Mrs. Butterfield was aroused by the sound of footsteps on the cement paving about the courtyard. She awoke her husband, who stood inside the door in the darkness watching.

Meanwhile, the man walked quietly around the house to observe if there were any illumination. As it was completely dark, he returned to the rear door, looked around and then opened the door and went inside the house. While he was standing in the screened porch, Mr. Butterfield (Continued on page 4)

### Bandit Shot in Raid On Dance Hall Safe

OCEAN PARK, Sept. 4.—One bandit was shot and probably fatally wounded, another was captured by police officers and a third member of a trio succeeded in making his escape early today after the men had been surprised by a lone police officer as they were attempting to break into a safe containing \$100 in the offices of a local dance hall.

### Learn Details of Two Jap Princes' Deaths

OSAKA, Japan, Sept. 4.—Details of the deaths of two princes of the imperial family reached here today.

### Mrs. Rupert Hughes Is Safe in Chinese Port

LOS ANGELES, Sept. 4.—The first message from the stricken area of Japan to reach Los Angeles came from Mrs. Rupert Hughes to her famous author-director husband, it was revealed today. It stated also she was "safe through everything."

### Rip Tides Here Result Of Tidal Waves In Japan

LOS ANGELES, Sept. 4.—Severe rip tides at Los Angeles within the last twenty-four hours were declared today to have been a direct result of the quake in Japan. Rip tides at the harbor are said to be common, but those of late yesterday and early today are declared to be the worst in some time. Experienced seamen declared the tides were the worst they had ever seen at this port.

### MOURNING IS ENDED AT CAPITAL

**Flag Over White House Now Flying Full Staff; New Secretary on Job**

By GEO. R. HOLMES  
For International News Service  
WASHINGTON, Sept. 4.—The great flag that flies at the White House went up to full staff this morning, marking the end of the period of mourning for the late President Harding.

The flag at full staff means that the president of the United States is in the United States mansion and that all is well with the republic.

Simultaneously with the ending of the period of mourning, the transition of administrations was completed today.

### Railroad Manager Is Held Up by Bandits

SACRAMENTO, Sept. 4.—Bandits who held up a Western Pacific train between here and Stockton at 5 o'clock this morning, robbed Edward Mason, general manager of the Western Pacific railroad, of an undetermined amount of money and a gold watch, it was reported to police headquarters here later this morning.

### WARSHIPS TO BE USED AS TARGETS

**Army Bombers Will Rain Shells on Navy Vessels Off Cape Hatteras**

By HARRY WARD  
For International News Service  
ABOARD ARMY TRANSPORT ST. MIHEL, OFF FORTRESS MONROE, VA., Sept. 4.—Bearing a distinguished company of government officials, army and navy officers, foreign military attaches and the usual complement of newspaper men and photographers, the army transport St. Mihel is en route today to a point off Cape Hatteras, where tomorrow the old battleships Virginia and New Jersey will be sent to a watery grave by army airplane bombers.

Included in the party are General John J. Pershing, Major-General Eli Helmick, Admiral Shoenmaker, Senator T. Heister Ball, eighteen members of congress, the military attaches of France, Great Britain, Spain, Poland, Argentina, Italy, Japan, Cuba and Brazil and several hundred army and navy officers.

Pick Warships' Graves  
If the carefully laid plans of the army air service do not miscarry the two obsolete battleships will find their last resting place in 50 fathoms of water at a point south of Diamond Shoals lightship before sunset tomorrow.

While the bombing takes place the navy department will have a fleet of five destroyers stationed at equal intervals between the targets and shore as a patrol to protect navigation and effect rescues in event of a forced landing by any of the planes.

The second bombardment group at Langley field will conduct the warfare against the two ships, the sinking of these vessels being the culmination of summer maneuvers.

A special aerodrome has been established on Cape Hatteras and operations will be controlled from that point.

### Sacramento Physician Is Slain by Bandit

SACRAMENTO, Sept. 4.—A masked bandit shot and killed Dr. J. L. Arbogast, well-known Sacramento physician, as the doctor attempted to resist being held up at 2:30 o'clock this morning.

The fatal shooting occurred on the H street road when Dr. Arbogast slowed down his machine before crossing a small bridge, according to Mrs. Marion G. Gleeson, the physician's companion. The bandit jumped on the running board of the car and as Dr. Arbogast failed to comply with his demand to halt, the highwayman pressed a revolver to his head and fired. The highwayman escaped.

### ITALY BACKS PREMIER'S DEFIANCE

**Ready to Withdraw From League of Nations, Says Mussolini**

By ELMO EMMANUEL  
For International News Service  
ROME, Sept. 4.—"I deny absolutely the competency of the League of Nations to meddle in affairs touching Italy's national honor," Premier Benito Mussolini declared today.

"I might even go so far as to say Italy would withdraw from the League of Nations," he added.

Public opinion and the press are backing up the premier's stand against league intervention.

The cabinet met today and passed a vote of endorsement on Premier Mussolini's policy in dealing with the Greek crisis.

Press censorship is holding up news of naval and military movements, but it is reported from Venice that the Greek yacht Aello fled from port after being attacked by motor boats.

It is semi-officially announced that mines have been laid around Leros island to prevent a Greek coup.

An announcement through semi-official channels claim that eight Greeks and two Armenians were killed during the Italian bombardment at Corfu "when they remained in the barracks on invitation of Greek troops."

The announcement claims furthermore that the British vice-consul's list substantiates Italy's claim that the Italians were blameless.

### Tokio's Dead 100,000, Official Cable Reports

PARIS, Sept. 4.—The Japanese embassy received an official cablegram from Tokio, estimating the number of dead in the Japanese catastrophe at 100,000.

### Here Are Highlights in Japanese Disaster Today

International News Service

INTERRUPTED communication and the isolation of whole Japanese districts that were ravaged by earthquake, tidal wave, fire and storm, made it impossible today to estimate the exact number of dead. An official dispatch to the Japanese embassy in Paris put the death list at 100,000 but other estimates were as high as 500,000.

According to the Japanese embassy in Washington there were 10,000,000 people in the path of this holocaust of death. It is feared Bonin and Oshima islands have been swallowed up.

It is officially established that the American consul at Yokohama, Max Kirjassoff, and his wife, Mrs. Kirjassoff, were killed. Ambassador Cyrus Woods and the members of his staff at Tokio are safe.

The United States has taken world leadership in rushing relief. The Red Cross is planning a \$5,000,000 relief fund. A mighty international fleet is speeding toward Japan with relief supplies.

The fire at Tokio has burned itself out. Damage in the Tokio district is estimated at \$5,000,000.

The Japanese capital has been removed to Osaka, but Japanese officials state that a great, new modern city will be erected on the ruins of Tokio.

Famine, pestilence and lack of drinking water are causing death and suffering in the devastated area.

About two million persons are homeless.

### U.S. CONSUL AT YOKOHAMA AND WIFE QUAKE VICTIMS; AMBASSADOR WOODS SAFE

Casualties Among Foreigners Are Said to Be Numerous; Report Great Need for Nurses, Doctors and Medical Supplies

WASHINGTON, Sept. 4.—Cyrus E. Woods, the American ambassador to Tokio, and all members of his staff, were uninjured in the Tokio earthquake disaster, although the United States embassy was totally destroyed, said an official dispatch to the state department from Iwaki.

John K. Davis, American consul at Shanghai, reported, however, that Max D. Kirjassoff, the United States consul at Yokohama and his wife had been killed. This was the first American casualty to be officially reported to the state department.

The dispatch telling of the safety of the American embassy staff was sent by Ambassador Woods himself. It follows:

"All embassy buildings totally destroyed, but no one in embassy injured. Food situation is very acute. Send rations at once from Philippines."

Consul Davis said his information on conditions in the Tokio region came via radio through the steamer President Jefferson of the Admiral line.

Oriental headquarters of the Admiral Steamship line here received word today that all members of their foreign staff at Yokohama are safe aboard the Pacific Mail liner President Jefferson.

The Jefferson is sailing for (Continued on page 8)

### Aides of Wood Rush to Japan On Relief Work

SHANGHAI, Sept. 4.—Brigadier-General Frank McCoy and Colonel Langhorne, aides to Governor-General Leonard Wood of the Philippine Islands, who arrived here on the Pacific Mail liner President Lincoln, have been ordered to proceed to Yokohama to assist in American relief.

They sailed for Japan this morning on the President Pierce.

### Plan Inquest to Fix Blame for Tot's Death

LOS ANGELES, Sept. 4.—An inquest may be held tomorrow over the body of Valma Hollingsworth, 5, who was clawed to death Sunday by a bear at the Reelart Motion Picture studio. It was learned today that efforts were being made to hold the inquest so as to determine who was responsible for the child's death.

The little girl is said to have gone to the studio with a playmate. According to the watchman at the studio, he never allowed children of the neighborhood to go behind the bars to look at the animals, but, in this instance, he had just fed the bears and believed he could watch the children and protect them. The watchman said he was observing a smaller bear and when he turned was horrified to see a big bear hugging the little girl, and that some moments elapsed before he could beat the animal off with a club.

### U. S. Destroyers Hurry To Aid Stricken Japs

CHEFOO, China, Sept. 4.—A destroyer fleet of the United States is en route today to render assistance to the destitute millions of Japan, following the earthquake and fire tragedy which destroyed a score of cities and towns of Nippon Saturday and Monday.

## SPECTER OF FAMINE IS CASTING SINISTER SHADOW OVER STRICKEN EMPIRE

**Hungry and Homeless Refugees Battle With Police and Soldiers In Effort to Get Food; Dead Piled In Great Heaps**

TOMIOKA, Japan, Sept. 4.—Via Radio Corporation of America to San Francisco.—The Japanese horror continues unabated. Death and destruction increase hourly as an agonized nation is reduced to a state of appalling helplessness.

Half a million casualties is the fearful toll of the disaster to date, according to estimates made today by the metropolitan police of Oyama.

Three hundred thousand houses are reported destroyed in Tokio alone, while hundreds of thousands of buildings are smoldering amid charred ruins in Yokohama.

The gaunt specter of famine is casting its sinister shadow over the stricken empire as the thousands of hungry and homeless refugees battle with police and soldiers in desperate efforts to obtain food. Scores of half-starved victims of the holocaust have been killed and injured in these riots.

In Tokio alone the number of dead is estimated to be in excess of 150,000, while the devastated port of Yokohama reports 100,000 dead among the victims of the combined earthquake, fire, tidal wave and typhoon tragedy.

From seven to eight hundred patients perished in the University hospital at Tokio when it collapsed and was consumed in the subsequent outbreak of fire.

Both Tokio and Yokohama continue to burn fiercely. A number of large oil tanks in Yokohama exploded with appalling consequences when reached by the flames.

Bodies In Huge Piles  
The fiery blast in Tokio, fanned by a strong wind, continues spreading terror and devastation throughout the capital city. Tons of dynamite are being used by the military in frenzied attempts to stop the whirlwind of flame.

Two earthquakes in Tokio late yesterday added to the horror and desolation. Hundreds of lives were lost, while four hundred additional houses were razed.

Thousands upon thousands of bodies are being piled up in huge funeral pyres and cremated in order to prevent an outbreak of pestilence.

Property loss throughout the terror zone runs into billions of dollars.

Japanese troops are being concentrated in Tokio and Yokohama from all parts of the empire to prevent a continuance of vandalism which has been rampant in the stricken cities. The strictest martial law prevails in both cities.

Relief work is being actively carried on. Hundreds of thousands of destitute refugees are lining up in front of relief stations for meager food rations.

The Japanese government has (Continued on page 8)

## Every Building in Tokio Fire Swept; Place Loss At Five Billion Dollars

By LLOYD LEHRBAS  
For International News Service

SHANGHAI, Sept. 4.—The devastating fire that had been burning continuously since Saturday at Tokio following the most pronounced earthquake ever experienced by Japan has burned itself out. Not a whole structure remained. The conflagration had consumed all of the principal buildings and houses. The city is a heap of smoldering ruins. Wireless messages brought this information to Shanghai today.

In Yokohama only two buildings remained which could be recognized. They are the Mitsui Bussan Kaisha and the Yokohama Specie bank. The interior of both buildings was consumed by fire. Only the shell remains.

The bureau of relief estimated today that the houses destroyed will total 400,000. The same source of information stated that the casualties will exceed 130,000.

No estimate of casualties in Tokio was given by the bureau, but all reports agree that the total dead in the island empire will approximate half a million. Property damage in Tokio, the seat of the Japanese government prior to the catastrophe, was estimated at five billion dollars.

Communication by telegraph with Tokio and Osaka was reported re-established, but the frail channel is not dependable. The lines are clogged with official governmental messages. Private messages are not accepted.

Millions Homeless  
In the capital city the Chinese legation was destroyed by fire. Official records were reported saved, however.

Two million persons are homeless on the outskirts of Tokio. They are camping out. All food has been destroyed and there is great suffering, particularly among the children. The military is in charge of the food rationing, but the force is inadequate to cope with the unprecedented situation.

So great was the extent of fire damage to the imperial palace (Continued on Page 8)

## Personal Mention

Mr. and Mrs. George H. Heltz recently moved from 1305 Stanley avenue to 1746 Glenwood road.

Mr. and Mrs. Frank Weller of 1012 East Lexington drive were visitors at Lake Arrowhead over Sunday.

Mr. and Mrs. J. W. Ashton of 322 El Bonito street are spending the week-end at the tent city at Redondo Beach.

Mrs. Amy Crist of 1293 South Boynton avenue, has just returned from Arrowhead Lake where she spent several days with friends.

Miss Doris Parks of San Diego, arrived today to make her home with her parents, Mr. and Mrs. G. L. Parks of 360 West Elk street.

Mr. and Mrs. Wilbur E. Lee of 1016 East Lexington drive spent the week-end at San Diego. They were accompanied by Mr. and Mrs. S. C. LaMar.

Mrs. Celeste Chatten of Visalia was a guest over Sunday of her aunt and cousin, Mrs. L. Cutler and Miss L. Cutler of 220 North Louise street.

Mrs. Ella Joralemon of the Betty Ellen shop, spent the week-end at Avalon, Catalina Island, with friends, returning home on Monday evening.

Mr. and Mrs. J. H. Current of 221 Dayton court, and Mrs. Current's parents, Mr. and Mrs. E. Y. Porter are enjoying a pleasant vacation at Arrowhead Lake.

Mr. and Mrs. B. F. Scott and Mr. and Mrs. G. C. MacDonald of North Brand boulevard enjoyed a deep sea fishing trip Sunday, off the coast at Redondo.

Mrs. Julia Messman and daughter, Miss Ruby, of 310 West Vine street, and Meredith Jones, of 312 West Vine street motored to Lynnwood today on a pleasure trip.

Mr. and Mrs. Frank Adams formerly of Grant City, Mo., and now residents of Los Angeles were the guests yesterday of Mr. and Mrs. I. J. Spafford of 314 East Chestnut street.

Mr. and Mrs. H. S. Clewett and family of 526 East Windsor road, who have been spending an enjoyable month on their ranch at Paradise are expected to return home the latter part of the week.

Dudley C. Newcomb, until recently of Los Angeles, has moved to Glendale and is making his home at the home of his brother-in-law and sister, Mr. and Mrs. Loren T. Rowley of 334 West Vine street.

Mr. and Mrs. C. A. Clough of 120 South Jackson street, returned last evening after spending ten days in Los Angeles at the camp meetings of the Southern California Conference of Seventh Day Adventists.

Mr. and Mrs. Horace Velton and children, Margaret and Paul, of San Bernardino, are spending three days as guests at the home of Mr. and Mrs. T. A. Slade of South Maryland avenue. The two families were formerly neighbors in San Bernardino.

Gerald Hayden of Salt Lake City, Utah, formerly of this city, was a visitor with Glendale friends Saturday afternoon. Mr. Hayden is enjoying a three weeks' sojourn with his parents, Mr. and Mrs. William B. Hayden of Los Angeles.

Mrs. Nellie Scott, soprano, of North Brand boulevard, sang for the Evening Herald radio last Saturday night. "I Forget You," "Trees," and "Thoughts of You" by Cadman. She was accompanied on the piano by Mrs. Winona Crawford of 800 South Central avenue.

Mr. and Mrs. James C. Crisman have moved to this city from Los Angeles and have located in a bungalow court at Central avenue and Colorado boulevard. Mrs. Crisman claims a large circle of Glendale friends. She was formerly Miss Gladys Maygrove of this city.

W. M. Crawford of 800 South Central avenue, and Mark Bradley of Santa Barbara, who has been visiting with the Crawfords for several days, left Saturday afternoon for the Santa Barbara mountains on a duck hunting trip. Mr. Crawford returned home last night.

Angeleno Gossman returned several days ago from a business trip to Chicago to join his wife and child at the home of his parents, Dr. and Mrs. Ludwig Gossman, of Sycamore Canyon road. Mr. Gossman, Jr., resides in San Francisco, where he went from this city several years ago.

Mr. and Mrs. Harry Reed and daughter Eloise and Mr. Reed's father, S. J. Reed, have just returned from a three months' visit in Kansas and Missouri and are at the home of Mrs. Reed's mother, Mrs. F. E. Wilks, 1011 East Acacia avenue. The Reed party motored east on the Santa Fe trail, visiting first in Missouri and then Kansas. The return was by way of the Lincoln highway. They spent three weeks on the road both going and coming.

## LOCAL PERSONALS

W. H. Verity of 511 West Broadway returned home Sunday from San Francisco, where he spent a few days on a business trip.

Miss Beatrice Tower of 328 North Maryland avenue is having the pleasure of entertaining as her house guest for several days Miss Evelyn Smith of Orange.

Mrs. A. Perry of 2039 Mountain avenue has recently returned home from Hamilton, Ontario, Can., where she spent the past four months looking after business interests.

Mr. and Mrs. George B. Pratt of 356 Myrtle street, left Sunday for Eureka and other northern points of interest. They made the trip via automobile and expect to be gone about two weeks.

Miss Mary Circle, Miss Ada Sallstrom, Miss Muriel Wilson and Mrs. Jessie Hunt, all teachers in the local schools, returned Friday from Balboa Beach, where they spent several pleasant days.

Mr. and Mrs. Leonard Pease of 621 North Isabel street and Mr. and Mrs. Daniel Hall of 126 Franklin court spent the week-end camping at Topanga beach.

Mrs. Catherine Gies, Miss Ada Gies, Mr. and Mrs. William Willis of 823 North Brand boulevard and Miss Margaret Sharp spent the week-end at Laguna Beach, where they were guests of Mr. and Mrs. Reed Heustis.

Miss Eleanor Perkins, Miss Lucille Anderson, Miss Marie Oliver and Mrs. Anderson of Glendale and Miss Lois Percey of Sunland, enjoyed a musical party at a Los Angeles theatre yesterday.

Mr. and Mrs. J. B. Doner of 319 North Central avenue, and Mr. and Mrs. John D. Cole and family of 122 Arden avenue, have returned from a two days' visit at Long Beach. Mr. and Mrs. Doner returned on Sunday night and the Coles returned yesterday.

Mr. and Mrs. E. C. Trimmer and daughter, Valera, of 419 West Patterson avenue, returned home Friday from an enjoyable motor trip north. They spent a week with friends in San Francisco, and on the way home visited in Santa Cruz and Monterey. They were gone two weeks.

Mr. and Mrs. C. F. Nicholson and family of 815 East Orange Grove avenue, Mr. and Mrs. Frank Huff and family of Franklin court, Mr. and Mrs. F. E. Wright and daughter Irene of 811 East Orange Grove avenue spent Sunday and Monday camping at Laguna Beach.

Mr. and Mrs. John Camphouse and their three children, of 217 East Maple street, residents of Glendale for ten years, are moving to Hollywood tomorrow, where they will make their future home. The fact that Mr. Camphouse's business interests have become centered in that community.

Mr. and Mrs. E. W. Cooper and family of 445 West California avenue, and Mr. and Mrs. W. F. Power and family of 328 North Maryland avenue attended the annual reunion of former residents of Vineland, N. J., which was held yesterday at Long Beach. They report a very enjoyable day visiting with former friends and neighbors.

Mr. and Mrs. Frank Butterfield of North Central avenue recently entertained a group of friends informally. They attended the symphony concert at the Hollywood Bowl, later returning to the Butterfield home for refreshment. Those present included Miss Flora Kilpatrick, Miss Marie Oliver, Mr. Lewis and Robert Raleigh.

Mr. and Mrs. George H. Rowe and daughter, Miss Nellie, of 126 South Orange street, and Miss Viola Johnston of East Colorado street, enjoyed a pleasant motor trip to San Diego and Coronado, where they spent the week-end. On Sunday they were the dinner guests of Mr. and Mrs. Eldman at their home in Escondido. Mr. and Mrs. Wildman are former residents of Glendale.

A party of young people, including Miss Lois Percey of Sunland, Miss Eleanor Perkins, Miss Marie Oliver, Glen Perkins, Glen Logan, chaperoned by Mrs. George R. Perkins and Mrs. J. O. Over of Glendale, recently enjoyed a motor trip as far north as Santa Maria. En route home they visited at Santa Barbara and other points of interest. They returned home last Friday evening.

The families of Mr. and Mrs. James A. Hughey and Mr. and Mrs. Herbert F. Morton, both of this city, accompanied by Mr. and Mrs. Howard Everett of Lankershim, returned Sunday from a three days' outing at Santa Monica canyon.

Ed Turner and two children, Junior and Margaret of 118 East Park avenue, returned yesterday from Coronado where they have been spending an enjoyable stay. Mr. Turner expects to remain another month.

Mr. and Mrs. H. L. Hock and daughter, Helen, of 628 North Central avenue, spent several days at Long Beach last week, where they visited at the home of Mr. and Mrs. J. S. Shaeffer. The two families were neighbors in York, N. D., several years ago.

Mr. and Mrs. Harold Silliker are recent arrivals from Canada and are visiting their uncle, W. M. Brown of 309 North Brand boulevard. This is their first visit to California and they are so delighted with Glendale that it is possible that they will locate here permanently.

Mrs. Johanna E. Edwards and son, Clarence L. Edwards, have returned to their home, 369 West California street, after an enjoyable week's outing at Avalon, Catalina Island. The trip greatly benefited Mrs. Edwards health.

A camping party which included a number of Glendale people enjoyed the week-end at Big Bear lake. Although a heavy rain was encountered and the air was decidedly cool, especially at night, the trip was a very enjoyable one.

The three autos carried Mr. and Mrs. W. H. Flynn and sons, Billy and Dickie, Mrs. Helen Cummins and Hershel Cummins, of Glendale; Mr. and Mrs. Thad Collier and Mr. and Mrs. W. C. Kennedy, of Los Angeles, and Ted and Stanley Kemp of Inglewood.

Over 400,000,000 defective teeth exist in people of the United States.

## Social Events

### Chosen Officers

Glendale Carnation Rebekah lodge is honored by having three of its members among the officers chosen Saturday night at the election, installation and institution of the chapter of Zuanne in Los Angeles.

Mrs. Evelyn Hall, noble grand of the Carnation lodge, was chosen Queen Ashayhi; Mrs. Mac Rich, taker of shakels, and Mrs. Sadie Bronnenberg, keeper of shakels.

Mrs. Rhoda B. Harris of Van Nuys, who returned recently from the national gathering in the east, organized the chapter.

Other officers installed were Mrs. Anna B. Driver of Los Angeles, past great Ashayhi; Mrs. Rhoda B. Harris of Van Nuys, great Ashayhi; Mrs. Harrison of Los Angeles, chaplain; Mrs. Nellie Wild of Van Nuys, guard of Zuanne; Mrs. Poole of Los Angeles, guide of Zuanne; Mrs. Taylor of Los Angeles, high executioner; Mrs. Anderson of Los Angeles, chief detector; Mrs. Charlotte Thompson of Burbank, assistant executioner; Mrs. Baynor of Los Angeles, assistant detector; Mrs. Kaufman of Los Angeles, captain of patrol.

There are over thirty-eight charter members and the chapter will meet on the first and third Saturday nights of each month.

According to Mrs. Hall the ritual is Oriental and very impressive.

After the meeting Saturday night the Zuanne joined the Oriental, the men's organization, for a banquet at the El Comodoro.

The Carnation Rebekah lodge will meet at 8 o'clock tonight in the Odd Fellows' hall on West Broadway. There will be a business meeting, and during the informal hour following Misses Bernice and Venona Keiser will give a piano and violin duet.

### Surprise Affair

A pleasant affair honoring Mr. and Mrs. Parker of 533 West Deane street, was a surprise celebration Sunday night of the sixtieth anniversary of their marriage that took place in Chicago.

The celebration was arranged by a group of friends and the evening was spent with cards, other games, music and dancing. Mr. and Mrs. Parker were the recipients of many gifts.

Those present were Mr. and Mrs. J. Landes, Mr. and Mrs. J. Brandes, Mr. and Mrs. M. Brandes, Misses Rose, Dorothy and Frances Brandes, H. Fischler, S. Kaufman of Hollywood; Mr. and Mrs. A. Fischler, Mr. and Mrs. M. Fischer, Mr. and Mrs. S. Wax, Mr. and Mrs. J. Davis and the Misses Lillian Anne Davis, Mr. and Mrs. H. Sommer, Mr. and Mrs. S. Slater, Mr. and Mrs. E. Cohn, Mr. and Mrs. I. Cohen, C. Fruitman of Los Angeles; Mr. and Mrs. L. Sommer and family, Mr. and Mrs. M. Sommer and daughter Gertrude, Mr. and Mrs. Wolf and daughters, Mr. and Mrs. W. Reeves of Eagle Rock.

Mr. and Mrs. Parker's daughters, Clara, Dorothy and son, Jerome, were also present.

### Called to Meet

Mrs. A. H. Montgomery, chairman of ways and means of the Tuesday Afternoon club, has called all members of the ways and means committee and the curators of all club sections to a special meeting at 2:30 o'clock tomorrow afternoon in the tea room of the clubhouse.

The first big benefit affair to be given this coming club year will be a society circus, November 16 and 17, at the clubhouse, and at the meeting tomorrow tentative plans will be made for this affair and for other affairs of the kind.

### Campfire Girls

A group of Weonahon Campfire Girls, turned out yesterday from a three days' camping outing in the Santa Monica mountains. They were accompanied on the trip by Mr. and Mrs. Spillsbury.

While in camp they enjoyed hiking and swimming and the evenings abated the campfire.

The girls enjoying the outing were Marjorie Prialux, Helen Wray, Audrey Phillips, Mildred Beaty, Dorothy West, Florence McCoubrey, Hazel and Ada Spillsbury.

### Hosts at Dinner

Mr. and Mrs. J. A. Endicott of 423 West Broadway were hosts at an informal dinner Saturday night, complimenting Mr. and Mrs. G. C. Seymour and son, George, Jr., of San Bernardino.

Other guests were Mr. and Mrs. A. D. Timmons of Glendale. The Endicotts' daughters, Bernice and Virginia, were also included in the company.

### DEATHS—FUNERALS

**MISS LOUISE KNIGHT**

Miss Louise Knight died Sunday, September 2, 1923, at her home at 553 West Harvard street at the age of 19 years.

She had resided in Glendale one year, having come with her family from the north.

Miss Knight is survived by her mother, Mrs. Nora A. Knight, one sister, Gladys Knight, and two brothers, Foster and Warren Knight.

She was a member of the Methodist church and an active member of the Philathea class.

Funeral services were held at 3 o'clock this afternoon at the Jewel City Undertaking chapel at North Brand boulevard and Wilcox avenue. Dr. Henry I. Rasmus, pastor of the First Methodist church officiated at the service and the burial was in Forest Lawn Memorial park.

### Shower Honoree

Miss Ruth Morton, who is to become the bride of Hugh B. Freeman on Thursday, was honored at a miscellaneous shower given last Saturday by Miss Eleanor Brice at her home at 304 North Kenwood street.

An artistic color scheme of yellow and golden brown was chosen by the hostess for the decoration of her home. Vases filled with large sunflowers were arranged about the Brice home.

As each of the guests arrived they were asked to write a recipe for a cook book, which was later presented to Miss Morton. Another entertainment feature was writing acrostics from the names of Ruth and Hugh. Miss Myrtle Mason won the silver candlesticks given for the prize.

During the afternoon Miss Brice read a clever original poem about the honoree.

Later when the doors of the dining room were opened Miss Morton discovered a huge crepe paper sunflower with the center made of the centers from the real blossoms. As she picked the centers she found a gift tied to each. The yellow and brown scheme was further carried out in the yellow and brown ice cream and cakes served.

The invited guests were Misses Phyllis Baker, Carolina Shockley, Ruth Palmer, Vesta Morrow, Shelia Acres, Fred Glendon, Modames Ellen Godd, Joe Fortunato, F. S. Freeman, Eustace Rowley, Mary Grawitz, Clark Christy, A. W. Holmes, Florence Morton, Galvin Brown, Max Cates, Clayton Holmes, Wade Freeman, Louise Morton, Sloan Freeman, Roy Freeman, R. L. Morrow, Fred Burt, Peter Weiss, Henry Lawrence, O. S. Palmer, Willard Keith, W. Follansbee, Frank Beaumont, Lela Buckham of Glendale, and Dorothy Hinckley, Myrtle Mason, Hilda Bohland, Mrs. George Rickard, Marian Fletcher, Fern Bixler, Mrs. Roy Freeman, of Los Angeles.

### Tell Of Marriage

Announcement has been received by friends of the marriage of James Crawford, son of Mrs. A. K. Crawford, 301 North Cedar street, to Miss Louise Mellus, daughter of Mrs. and Mrs. William H. Crawford, 101 North Central avenue. The wedding took place at the home of the bride, 2114 Oak street, Saturday, August 25, 1923, in the presence of immediate members of the family. Mr. and Mrs. Crawford are spending their honeymoon at San Diego and Big Bear, and on their return will be home to their friends at 809 North Central avenue.

Mr. Crawford has lived in Glendale since he was 9 years old, and spent his school life here, being a graduate of the Glendale Union High school. He is the manager of the Glendale Airport.

### Portrays Columbia

To Mrs. Charles H. Temple of 145 North Orange street, well-known Tuesday Afternoon club member, goes the honor of portraying "Columbia" in the opening night of the forthcoming production, "The Wayfarer," in the coliseum, Exposition park in Los Angeles. The opening event will be Saturday night, September 8.

Mrs. Temple is a woman of charm and dignity and when the Tuesday Afternoon clubhouse was formally opened last March she appeared in the sketch "Women of History," taking the part of "Cornelia," a Roman matron.

### New Japanese Cabinet

#### Officials Selected

TOKIO, Japan, Sept. 4.—Via radio to Radio Corporation of America.—In spite of the terrific cataclysm which engulfed Japan Saturday, announcement was made in the press outside of Tokio that the new cabinet of the Yamamoto ministry had been completed.

This information was given to the Radio Corporation of America by the Japanese government. Iwakura, premier and foreign minister, Yamamoto, home minister, Goto, finance minister, Inoue, war minister, Lanaka, agriculture, commerce and justice, Den, communication and education, Inukai.

### Radio Spelling Bee

#### To Be Held Nov. 22

SACRAMENTO, Sept. 4.—The radio spelling bee, proposed by Will C. Wood, state superintendent of public instruction, as a test of modern educational methods, will be held on the afternoon of November 22, with thousands of students in California, Nevada, Oregon and Washington as the participants.

Wood announces that the subject matter for the unique spelling match will be taken from Emerson's Essays on Compensation, and will be broadcasted from San Francisco.

All senior high school students are eligible for the contest.

### Loss of Jap Warships

#### In Quake Is Feared

WASHINGTON, Sept. 4.—The Japanese battle cruiser squadron, comprising the finest warships in the Japanese navy, may have been destroyed by the national disaster, according to fears expressed here by naval attaches at the Japanese embassy.

The fleet, one of the best naval fighting units in the world, was last reported en route to anchor at Yokosuka, twenty miles from Tokio. This port was reported practically destroyed by the quake, followed by a tidal wave which inundated the harbor.

## Roy L. Kent Tells About Visiting 28 States; Makes Auto Dash Up Pike's Peak

COMMENTING on his recent trip east, Roy L. Kent gives as the most interesting event the visit to the national capital at Washington, D. C., and the most thrilling the 14,000 foot dash to the top of Pike's Peak, Colorado, in his own car. In the party were Mr. and Mrs. Roy L. Kent and their three children, Wesley, Howard and Ethelwyn, of 522 North Central avenue. They left Glendale June 14, with Mr. Kent's parents, Mr. and Mrs. C. W. Kent, of 107 Arden street, aboard the "Rotary Special" bound for the international convention at St. Louis, June 18-22 inclusive.

Aboard the train with the Kents were George Karr, president of the Glendale Rotary club, and J. L. Wernette, a Rotarian, with his son Gene.

Roy L. Kent, as the first president of the Glendale Rotary club, was a delegate to the convention. He obtained delivery in St. Louis of a new Cadillac motor car, ordered through the local agency, and had the use of the machine during the convention.

### Visits Many States

At St. Louis the C. W. Kents took leave of their son and family and went on to Meadville, Pa., by train, while the Roy L. Kents headed east in their new car, in what proved to be one of the most inspiring tours they have ever enjoyed.

"We went through twenty-eight states, visiting every city of importance north of the Mason-Dixon line," states Mr. Kent, "and brought back to Glendale St. Louis air in one of our tires. Our gasoline consumption was 720 gallons, and the speedometer registered 7800 miles on our return."

"The roads from Omaha back to Glendale were only fair. The balance of the roads, particularly in the East, we found excellent. And the scenery in New England and along the Great Lakes was beyond compare."

### On Noted Battlefield

"From St. Louis we went to New York, through Washington, stopping at Mt. Vernon, Arlington cemetery, Gettysburg, Pa., where we visited the famous battlefield, Baltimore Md., and Newark, N. J. I attended the International convention of the Boy Scouts of America, at Bear Mountain, N. Y., July 9 and 10. We then motored on to Hartford, Conn., then up through historic New England to Boston, Mass., Lexington, Concord and into Vermont, stopping at Brattleboro, on into New Hampshire, the Green mountains, then White mountains, thence over into New York again, Saratoga Springs, Syracuse, Niagara Falls, Buffalo."

"We then came out through Toledo and Chicago at Milwaukee, stopping at Madison, Minn., and at Rochester, the same state, known as the home of the Mayo brothers. Then we came on to Omaha and followed the National Old Trails highway to Denver and Estes Park, a portion of the Rocky Mountain forest reserve."

### Climb Up Pike's Peak

"It was while in the vicinity of Denver that we made the climb up Pike's Peak, finding a perfect road clear to the top, broad and well ballasted, thick with cars. From the top of that tremendous mountain, which looks just like you would picture a volcano, the view is beyond any description, the most panoramic I have ever seen."

"We came through Colorado Springs, where we visited the famous cliff dwellings, then came on over the Pike's Peak Highway to Salt Lake City, thence over the Arrowhead trail back home."

"We visited relatives in Erie and Crawford counties, Pa., and again at Eau Claire, Wis. And, of course, we joined my folks for a while at Meadville, Pa. Mother came back with us from there, leaving father to come later by train."

"We found Concord, Mass., the most interesting town anywhere on the trip. Aside from its historic part in the Revolutionary war, it was the 'home town' of Nathaniel Hawthorne, Ralph Waldo Emerson and Louisa May Alcott, each of whose homes we visited."

"While we were at the Scout convention at Bear Mountain, we went down the Hudson a few miles to the National Military

### CLUB ACTIVITIES TO BE LAUNCHED

## TUJUNGA CHURCH SOCIALS MOST ENJOYABLE

Coach Wieman and Wife  
Now on Way to Michi-  
gan University Town

Church circles and societies of  
Tujunga have given some enjoy-  
able entertainments during the  
past week.

Among these was a dinner given  
by the Philaetha class of the  
community church in honor of the  
mothers of members of the class  
and the Sunday school officials.  
Places were laid for thirty guests.  
A color scheme of decorations of  
white, green and yellow was car-  
ried out.

Miss Margaret Farr, president  
of the class, acted as mistress of  
ceremonies. A program of music  
and readings and recitations was  
enjoyed, including the following:  
"How It Started," by Lois Wie-  
man.

"Telling Who's Who," by Mr.  
Jenkins.

"It's Who and What," by Miss  
Ruth James.

"Lovely Sunday Mornings," by  
Miss Stella Wieman.

"Happy Big Boys and Little  
Girls," by Mrs. H. I. Farr.

"Easily Sweet Sixteen," by Rev.  
J. E. Stotts.

"All's Over," by Rev. Glenn  
Moore.

A large party of Christian En-  
deavor society young people took  
advantage of the summer weather  
and gave a watermelon social one  
evening on the lawn at the home  
of Clarence Buck on Hillcrest  
drive. Melons were served and  
games were enjoyed.

"Tad" Wieman Leaves

Mr. and Mrs. Elton E. Wieman  
left Tuesday morning for Michi-  
gan, where Mr. Wieman, or "Tad,"  
as he is known to his friends and  
followers of sports, will coach the  
Ann Arbor university football team  
through the coming season.

"Tad" Wieman is one of six  
brothers who have distinguished  
themselves on the gridiron. Mr.  
Harry N. Wieman, professor of  
philosophy at Occidental college,  
was on the eleven some years ago,  
when Occidental defeated some of  
the best teams in the West.

"Tad" is considered an even  
greater success as a coach. He  
and his wife have been visiting  
his mother, Mrs. Alma F. Wie-  
man, at the family home at Pine  
and El Centro streets, Tujunga.

The Nettekoven place on Ma-  
nana street has been purchased  
by Mr. and Mrs. James Coffman,  
recently of New York, who will  
make this their home. Mr. Coff-  
man made the cross-continent trip  
in his car.

Mrs. Anna L. Reed, one of the  
Western Empire colonists who  
first located in Tujunga, is mov-  
ing to Linwood, where she has  
property.

Mrs. Martha Powell won the  
ladies' grand prize at the card  
party given in Legion hall by the  
Women's Auxiliary.

Miss Jessie Stewart and Miss  
Ruth Randall, a sister of Mrs. C.  
J. Bloore, were Tujunga visitors  
during the week. They are stu-  
dents at the California School of  
Christianity in Los Angeles.

Miss Helen Franke has been  
spending a short time at the Y.  
M. C. camp on the Rim of the  
World, near Lake Arrowhead,  
with Mr. and Mrs. Drury Wieman.

Miss Ruth Morgan of San Fran-  
cisco has been visiting relatives  
in Tujunga.

Mr. and Mrs. C. J. Bloore re-  
cently entertained Mr. and Mrs.  
Francis Koch and daughter, Dor-  
othy of Pasadena, their cousins.

Mr. and Mrs. Wallace Wieman  
of Dinuba, Cal., have been visit-  
ing Mr. Wieman's mother.

Mrs. Simons and two daugh-  
ters, Margaret and June, have  
gone on a trip to Boston, to visit  
friends and relatives. They ex-  
pect to be gone about two months.

Mrs. E. E. Kautz entertained as  
her week-end guests Mrs. Myrtle  
Boone and daughter of El Centro  
and Harry Young of Inglewood.

Mr. and Mrs. Wertz spent Sun-  
day at Long Beach.

Mr. and Mrs. H. B. Tilton en-  
tertained friends at dinner re-  
cently.

Mr. and Mrs. T. M. Hall spent  
Sunday in Tujunga visiting  
friends.

Mr. and Mrs. Sumner H. Adams  
of Summit avenue entertained  
Mrs. Ross Smith and daughter,  
Helen, of Whittier over the week-  
end during the Moon Festival.

Walter Jones, proprietor of the  
Hallmark Transfer service in Los  
Angeles, has taken the Bailey cot-  
tage in Beulah court for his moth-  
er, who will spend the rest of the  
summer in Tujunga.

Miss Mildred Jones spent the  
week-end with her mother and en-  
tertained friends at the Moon Fe-  
stival given by the American Le-  
gion.

Arthur Roseman and Arthur  
Gatz of Los Angeles and Jack De-  
war and Spark McCusky of Glen-  
dale were visitors at the Casa de  
Los Amigos during the week.

## Members of Police Force Take Outing

A number of members of the  
local police force and their friends  
made up a party that motored to  
Venice Saturday for a day's out-  
ing at the beach resort. They left  
Glendale at 4 o'clock a. m. and  
arrived at the beach for an early  
morning plunge, swimming out to  
the raft that is stationed some  
distance from the strand, and re-  
turning together to the shore.

Acrobatic stunts on the sand, and  
a wrestling match were additional  
features of the day's pleasure.

Members of the party were  
Patrolman and Mrs. William La-  
Rock, Mrs. Evelyn Miller, Miss  
Dorothy Miller, Mrs. Miller,  
Patrolman Glenn Henninger, De-  
tective Sergeant Dan Armer, and  
Walter Johnson.

## EAGLE ROCK ELECT OFFICERS OF ASSOCIATION

Next Meeting of Occidental-  
York Valley Assn. Set  
For September 24

Election of officers was held at  
the last meeting of the Occiden-  
tal-York Valley Improvement as-  
sociation, with the following re-  
sults: Mrs. H. R. Collins, presi-  
dent; M. W. Doyan, vice-presi-  
dent; Mrs. O. Phillips, secretary;  
Mr. Seome, treasurer.

Messrs. Collins, Lester and  
Benzer were elected to the  
board, on which Rev. J. G. Ken-  
nedy, D. D., serves as an honor-  
ary member.

There will be no meeting of  
the association on Admission Day,  
this meeting having been post-  
poned until the fourth Monday of  
September, which falls on the  
24th.

## Local Notes

The first meeting of the local  
Auxiliary of the American Legion  
will be held this afternoon, Tues-  
day, September 4, at the home of  
Mrs. A. R. Rose, 521 Acadia ave-  
nue. All wives, mothers, sisters  
and daughters of the Legion, lo-  
cal post or elsewhere, are cordi-  
ally invited to be present.

Members of the Theodore Ko-  
then post of the American Legion  
are laying plans for a big vaude-  
ville show in the fall, and will dis-  
cuss this event at their meeting  
in the Legion hall tonight. It is  
understood that they have pledges  
of support from a number of lo-  
cal organizations.

"Three Live Ghosts" haunted  
the Central school auditorium on  
Friday and Saturday nights of  
last week. Mrs. Elgie Lowry  
Fischer played one of the promi-  
nent roles very capably, in ad-  
dition to presenting the piece with  
her usual skill. Others in the  
well balanced cast were Shirley  
Allen, Lawrence Slosson, Edmond  
Brady, Leota Bannister, Jack  
Irwin, Wilda Bowlsby, Lee Watts  
and L. Lowry Fischer. Mrs. W.  
Lyman, of Chicago, played "Lady  
Leicester."

All holding cards on the local  
branch of the Los Angeles Public  
Library, must re-register, if they  
have not already done so, accord-  
ing to Mrs. Blanche A. Gardiner,  
in charge. When this has been  
done, holders of these cards may  
use them without extra books from  
any of the Los Angeles libraries,  
the Central branch included.

There is at the present time a  
petition circulating in Eagle Rock  
for head-in parking, and those in  
favor of this method of depositing  
cars along the streets are asked  
by the Women's Twentieth Cen-  
tury club, who are sponsoring the  
movement, to attach their names  
without delay.

"One of the most effective ways  
to advertise Eagle Rock as the  
Dahlia City," say Mrs. C. W.  
Young, "is to display dahlias on  
every possible occasion. Mer-  
chants, particularly, are asked to  
keep these beautiful blooms in  
their windows during the season."

Social and Personal

Members of the Young Matron's  
club of the Congregational church  
enjoyed a delightful after-  
noon last Wednesday at the home  
of Mrs. John T. Baily, 505 East  
Hill avenue. The next meeting of  
the club, a picnic affair, will be  
held soon in the grounds sur-  
rounding the C. W. Young home  
on Rock Glen avenue.

About thirty-five Eagle Rock  
Eastern Stars and Masons visited  
the Ventura lodge last Friday  
night, where they put on the  
third degree work, enjoying in  
addition a dip in the surf and a  
delightful dinner.

Occupation Program  
Of Italy Completed

ROME, Sept. 4.—Announce-  
ment is made through semi-offi-  
cial channels that seizure of  
Corfu, Paxos and Antipaxos com-  
pletes Italy's occupation program  
in Greece, unless Greece forces  
further steps.

Officials maintain that Greece's  
appeal to the League of Nations  
cannot be recognized as the present  
Greek government has not been  
diplomatically approved by the  
powers.

All the Greek consuls in Italy  
have resigned in protest against  
the killing of Italian officials on  
Greek soil.

Premier Mussolini is being  
flooded with messages of encour-  
agement, expressing approbation  
over the firm stand he has taken  
against League of Nations inter-  
vention.

Italy will insist that Greece pay  
the cost of military occupation as  
well as indemnity for the killing  
of Italians.

## Cuban Heads League Of Nations Assembly

GENEVA, Sept. 4.—M. Della  
Torriente Y. Perna of Cuba has  
been elected president of the  
League of Nations assembly.

The league was facing a severe  
trial as a result of the Italian  
Greek dispute when the fourth an-  
nual meeting opened today. Ar-  
gentine was the only absentee.

There is an extensive program  
of international business.

Chairman Ishii opened the  
plenary session, but made no re-  
ference to the Italian-Greek situ-  
ation in his speech.

The assembly unanimously  
adopted a telegram of condolence  
to be sent to Japan.

As the river swallows the little  
streams so will a broad, elastic  
mind swallow criticism.

## BURBANK AUGUST BUILDING SETS NEW RECORD

Passes Entire 1922 Figures  
By \$32,922; Next Four  
Months 'Velvet'

Burbank in the August just  
passed practically doubled her  
building permit record of August,  
1922, rolling up a total of \$144,-  
750 for the month, as against  
\$71,850 for that period last year.

This city has, moreover, al-  
ready passed, with \$32,922 to  
spare, the entire building total of  
1922, which leaves four months of  
"velvet." The figure to date this  
year stands at \$1,363,932, as  
against \$1,330,940 for the year of  
1922.

The total of \$144,750 for Au-  
gust, 1923, is over \$44,000 greater  
than last month, \$65,500 greater  
than for the same month last  
year, and \$44,900 greater than  
August, 1922.

The total number of permits  
issued during the month just  
closed was 97. The largest single  
permit was \$12,000 for the new  
Minor theatre building and an-  
other of \$12,000 for the addition to  
the Joaquin Miller school.

Practically all other permits  
called for houses or garages.

In this connection it is interest-  
ing to note that by far the greater  
number of residence permits run  
in the neighborhood of \$4000,  
with a few over and a few under,  
that figure being the average of  
investment in a home, for this  
city.

## Fall Festival

There will presently appear  
stretched across San Fernando  
Road a banner with the words,  
"Fall Festival, Auspices Burbank  
Women's Club—October 11, 12  
and 13."

Everything in connection with  
the forthcoming festival is pro-  
gressing smoothly and it can be  
banked on as being one of the big-  
gest events ever held within the  
city limits.

There will be many exhibits,  
including fruit and vegetables,  
both fresh and canned, cooked  
food, flowers, and a fine program  
of entertainment is being devel-  
oped, to include movie perfor-  
mances, the Bohemian players in  
"Mrs. Temple's Telegram," and  
other events.

Season tickets for the Fall Fe-  
stival are now on sale at the Build-  
ing and Loan Association office,  
162 Olive avenue.

Better Phone Service

Between October 15 and No-  
vember 1, it is reported from  
telephone headquarters, the "hel-  
lo" service of Burbank will go on  
its new basis of improved facili-  
ties.

Material is now arriving by the  
coast and a six-position switch-  
board is being set up. This will  
double the number of girls now  
handling the calls.

The partitions are up and the  
wiring will begin at once, it is  
stated. The equipment going in  
is said to be the very latest in  
type and equal to anything being  
put in elsewhere. Greatly in-  
creased volume and efficiency of  
service will result.

## LA CRESCENTA

ACTIVITY SHOWN  
IN REAL ESTATE

Property in Every Section  
Changing Owners at  
Phenomenal Rate

Real estate has been moving  
along at a brisk rate lately, ac-  
cording to reports from some of  
the local realty brokers. Mr.  
Easton sold his grocery store on  
Montrose avenue, the considera-  
tion being \$4000. Another deal  
from this office was a park lot.

Mrs. Louise Erwin sold two lots  
to Mr. and Mrs. Kiefer of Holly-  
wood, who intend building a sub-  
stantial home on them. Mrs. Er-  
win also sold three lots to Mr.  
Manahan. Mrs. Hickey passed a  
busy week, selling several lots.

Cline & Roma have only a few  
lots of their No. 2 tract left. The  
Cuberson division is moving  
along nicely, about half of the  
business lots on the Los Angeles  
avenue side being sold. This tract  
adjoins the school grounds. The  
Switzer tract sold out its original  
lots last week, which closes the  
sales of these lots, with the ex-  
ception of the resales. Bruce,  
Cook & Talmadge are hustling  
around, having made some big  
sales in the past two weeks.

The new Warner tract sold five  
lots on the opening days, and ex-  
pects to do a land office business  
by next Sunday, when the tract  
will be cleared off. Altogether,  
La Crescenta is being put on the  
map by enthusiastic buyers who  
are making it a community of  
homes, not speculation.

Mrs. S. B. Young and sister,  
Mrs. Waltz of Florida, have re-  
turned from a motor trip to Yel-  
lowstone park.

Guests From Fresno

Mrs. Louise Erwin has as her  
house guests Mrs. G. B. Hutchin-  
son and granddaughter, Betty  
Elaine Jarvis, of Fresno.

Mrs. Czerniski, daughter and  
son, have returned home from a  
visit spent in Berkeley and San  
Francisco. The journey was made  
by auto.

Miss Lena Krug has left for a  
trip to Yellowstone park and  
Omaha, Neb. She expects to be  
gone quite some time.

Mr. and Mrs. Bruce have re-  
turned from their motor trip to

## COMMENT That's All

Relief Funds For Japan  
About Our Correspondents  
Pickles—We Like 'Em  
Coolidge Talks To Editors  
By Gil A. Cowan

ALREADY relief funds in the  
various cities, states and  
countries have been started  
in view of the pressing necessity  
of the Japanese situation.

In Shanghai it is reported  
\$300,000 was raised almost in-  
stantly. In Los Angeles several  
thousands have been given.

Here in Glendale Dr. Henry R.  
Harrower starts the list with \$100  
contribution. Others should  
answer the appeal of President  
Coolidge and send relief subscrip-  
tions to the American Red Cross.

For far worse than the quake  
itself will be the famine and  
pestilence to follow.

In regard to the earthquake  
news a word of praise must be  
spoken for the reports received by  
The Glendale Evening News.

The International News Ser-  
vice has been on the job from the  
very start, giving first flashes to  
the world from the Radio Cor-  
poration of America plant at Bo-  
linas early Saturday morning.

Following this on Sunday it  
sent out special bulletins of the  
reports received from Edna Lee  
Booker, former Los Angeles high  
school girl, who is stationed at  
Shanghai.

Lloyd Lerbas was another who  
contributed to the columns of ex-  
clusive information published in  
America by the International  
News Service.

Norbert Lyons at Manila was  
another correspondent who got  
into action early in reporting the  
world's greatest catastrophe.

And we are momentarily wait-  
ing to hear from Duke N. Parry,  
or his two American assistants,  
who are in charge of International  
News Service's oriental bureau  
in the stricken city of Tokio.

In other columns of today's  
paper you will note Glendale be-  
ing famed for its cucumbers.

Verily, we may become the  
pickle center of the Pacific coast.  
And we do love pickles, that is  
everything except pickled pigs'  
feet. We had some at the Hotel  
Maryland the other day while vis-  
iting Pasadena.

Just why such a plebeian dish-  
or is it an epicurean delight—  
should have been served the Ro-  
tary Club we do not know. At  
any rate we ate none.

Yet there is no doubt but what  
many readers of this column  
would gladly walk blocks to get  
that kind of pickle.

President Coolidge, in a recent  
letter, has suggested several ways  
in which the newspapers of the  
country may take an active part in  
constructive government, the fol-  
lowing paragraphs being well wor-  
thy of publication:

"Every newspaper can be very  
helpful in its support of the gov-  
ernment, whether it be state or  
national. Fundamentally this  
means always making the author-  
ity of the law supreme. It means  
undivided allegiance to the con-  
stitution, and unhesitating obedi-  
ence to legislative action made in  
accordance with its provisions."

"Constructive criticism is al-  
ways helpful. It keeps institu-  
tions from becoming fossilized  
and falling into decay. But con-  
structive criticism does not accom-  
plish its purpose merely by point-  
ing out what is evil. It must not  
fail to direct attention, with more  
emphasis, to what is good."

"Our institutions, our social or-  
ganization, our economic condition  
are all of a quality which are wor-  
thy of our highest admiration. I  
believe that it will be exceedingly  
helpful to public sentiment if  
these principles and ideals can be  
reiterated from time to time,  
joined with reverence for religion  
and an aspiration for better  
things."

There is no truly American ed-  
itor who would not subscribe to  
such a program, but there are cer-  
tain self-seekers who never will  
place service above self.

# SEPTEMBER — \$1 DAY — SEPTEMBER WEDNESDAY IS \$1 DAY AT FERBER'S

Bring your dollars to Ferber's Wednesday and make them do twice as much for you. Come Wednesday and see what your dollar will do for you. Our \$ Days are becoming more popular all the time. Why? There is a reason. Come Wednesday and see for yourself.

### Children's Hose

—In black or cordovan; a good school hose; in all sizes. Regular 50c values. Dollar Day price,

**3 for \$1.00**

### Turkish Towels

—Made by the Cannon Mills. A soft absorbent towel. A regular 35c value. Dollar Day price. Size 34x17.

**5 for \$1.00**

### Men's Imported Linen Hkfs.

—Made of pure Irish linen. A nice large size, a regular 50c value. Dollar Day price,

**5 for \$1.00**

### Men's Knit Ties

—In beautiful patterns. Regular 50c values. Dollar Day price,

**3 for \$1.00**

### Sheets

—72x90, made of a fine grade muslin. A regular \$1.50 val. Dollar Day price,

**\$1.00 each**

### Ladies' White Waists

—Made of voile, beautifully trimmed, all sizes; regular \$1.50 values, Dollar Day price

**\$1 Each**

### Boys' Blouses

—In striped percale, washable, in all sizes, 8 to 15. Regular 75c value. Dollar Day price,

**2 for \$1.00**

### Children's Athletic Union Suits

—In a good grade nainsook, for boys and girls; regular 75c values. Dollar Day price,

**2 for \$1.00**

### Ladies' Silk Stockings

—Semi-fashion, duo seam high spliced heel. A regular \$1.50 value. Dollar Day price,

**\$1.00 a Pair**

### Children's Mercerized Socks

—In all colors, in all sizes. Regular 35c values. Dollar Day price,

**6 for \$1.00**

### Schoolday Suiting

—In all colors; a strong, washable material at the right time for the making of school clothes. Regular value 35c, limit 10 yards to a customer. Dollar Day price,

**5 Yards for \$1.00**

### Men's Socks

—Of a medium weight, natural light gray color. A regular 30c value. Dollar Day price,

**6 Pair for \$1.00**

### Ladies' Imptd. Linen Hkfs.

—Made of pure Irish linen in the popular colors being used today. Regular 35c values. Dollar day price,

**5 for \$1.00**

### Ladies' Brassieres

—In flesh brocaded. A dandy value at 69c. Dollar Day price,

**2 for \$1.00**

### Slips

—42x36, same brand as the sheets. Regular 29c value. Dollar Day price,

**5 for \$1.00**

### Men's and Boys' Caps

—In styles and colors now being worn; just the thing for school wear; regular \$1.75 value. Dollar Day price,

**\$1 Each**

### Women's Summer Dresses

—Just nine of them left; sizes 16 to 40. White voiles, tissue gingham, dotted voiles; values up to \$9.98. Dollar Day price.

**\$1 Each**

# 'HACK' HOLDS OWN WRESTLING 'THE BOOL'

## Draw Decision In Main Event On Legion Card; Myers Gives Wildcat Worst Of Fistic Bout

By ART SHERBORNE  
Of The Evening News Staff

SUCCESS marked the athletic card put on last night at 331 North Brand boulevard under the auspices of Post 127 of the American Legion. About 850 persons attended the exhibition of boxing and wrestling, according to the report of Lester Marston, 103 West Broadway. Over 350 ring side seats were occupied and more would have sold readily had they been available. Standing room only was the order of the evening long before the gong sounded for the first time.

Glendale citizenry was well represented at this entertainment. The city hall family was represented by Mayor Spencer Robinson—minus his collar—who seemed to enjoy the affair immensely, as well as the others. A large number of women were among the spectators.

**Wrestlers Draw**  
The main event of the evening, an hour and a half wrestling match, between "Bull Montana" and John Hackenschmidt, ended in a draw. It kept interest at a keen edge. The two mat artists were in action constantly and at no time did the contest lag.

Despite Herculean efforts, which caused his muscles to stand out like whipcords, "Hack" was unable to throw "The Boole." Because of his extra strength, Hackenschmidt seemed to have a shade the best of the contest. He obtained a number of complicated holds, and on two occasions had his opponent standing upon his head, but, owing to Montana's cleverness and agility, he was unable to make much use of his advantage.

**Good Work by Good Boys**  
Pandemonium almost broke forth in the hall when Capt. W. A. Loving of 1021 Matilija road, who was acting as official time-keeper, raised two fingers to notify Sergeant A. Kerns of 1135 Raymond street, referee, that only two minutes remained.

Both contestants were then at grips near the center of the mat. Montana had a face-lock and Hackenschmidt had a toe-hold. Hackenschmidt broke the hold and Montana then got him in an iron-bar hold. This action consumed one minute. During the next minute Montana worked into an arm-scissors and iron-bar hold. The contestants were in this position when the gong sounded—giving "The Boole" a slight advantage.

The boxing bouts, which preceded the wrestling match, proved to be animated enough to satisfy the spectators and, from the amount of enthusiasm thrown off like surplus steam, they seemed to be thoroughly enjoyed.

**Myers Has Best of It**  
"Arizona Wildcat" of Burbank, whose real name is H. R. Williams, man, proved himself to be a local fire department down for the count. As a matter of fact, he was unable to floor the local fighter and popular acclaim gave Johnny the decision.

The first round was rather slow and Referee Checho Watson of 205 North Glendale avenue, who fights under the name of "Chick" Watson, was kept busy breaking up the clinches. At its end, "The Cat" had a slight advantage.

In the second round Arizona rained blows, which were by no means love-taps, but Johnny proved to be a good ducker. He returned the complimentary blows and managed to get a good one to his opponent's jaw, which was greeted with much applause from his supporters. The round was Johnny's.

**Fall Over Themselves**  
The next two rounds showed still more pep. In the third round Johnny tripped backwards and Arizona tumbled over on top of him. They were up again in a second, however, and the battle was continued with ferocity. It ended at the end of the fourth round with Johnny as the hero.

An added attraction, which was not scheduled upon the card, was four one-minute-rounds between Frankie Grant and "Speck" Johnson—two sixty-pounders from Lankershim. The 11-year-old youngsters kept in action and put up a hard scrap. It resulted in a draw.

**Some Real Knockdowns**  
The first bout was between "Young Joe Rivers" of Los Angeles and Jack Carr of 537 West Harvard street. Despite predictions before the affair that the local fighter would meet his Waterloo, he seemed to have considerable of an advantage during the entire battle. In the second round Carr knocked Joe down—and then helped him up again. He immediately proceeded to knock him down again. In the following rounds several knockdowns were scored by Jack, but his opponent refused to remain for the count although he seemed glad to hear the final gong.

The most decisive victory of the entire card was scored by Freddie Clagge of Pasadena against A. W. Pitcher of 232 North Cedar street, who fights under the ring name of "Young Woodley." At the start of the second round, Clagge was knocked down for a second. "Woodley" followed his advantage with a blow to the stomach. "Clagge" regained control of the situation, however, and a few seconds later had felled "Woodley."

**Others Would Contest**  
Several challenges were made during the card. Before the wrestling match, challenges were

made by Orlando Miller of Lincoln, Nebraska, who is now stopping in Long Beach, and P. A. Mullikin wrestling instructor of the Los Angeles Y. M. C. A.

"It is a great pleasure for Glendale Post 127 to put on these bouts," exclaimed Chalmers D. Day of 521 East Elk street, commander of the local post. "It is our first experience and it is very gratifying to see so many athletic-loving sportsmen present."

Announcement was made by Commander Day that local Legion post intends to put on a series of cards this winter which will be worth while.

A. L. Frederick, chairman of the athletic committee of the Douglas County Post at Omaha, Nebraska, which is the largest Legion post in the United States, commented on the fact that this post, which has a membership of 3800 ex-service men, has started to promote cards three years ago, and, through its insistence upon clean sportsmanship, now packs an auditorium with over 6000 spectators.

William M. Tally, proprietor of Tally's arena at Phoenix, Arizona, made a few remarks from the ring. Both Mr. Tally and Mr. Frederick made the trip from Long Beach especially to witness the entertainment. Fans from Pasadena, Long Beach, Lankershim, Hollywood and Los Angeles were present, also.

by JACK KEENE

Lee Fohl, recently ousted manager of the Browns, resents the statements that he is not a team builder and denies that he found a "ready-made" team when he succeeded Jimmy Burke as the manager of the Browns in 1921. He declares that he helped several of the Browns stars. During the days when he was being criticized he made this statement to the St. Louis Post-Dispatch:

"I don't mind letting it be known that I think I made the Browns a great ball club. Of course, no one can do anything with a squad which is disrupted by the knowledge that the manager is likely to be fired at any minute. But I am willing to stand on what I did with the Browns when there was harmony."

"I made Kenneth Williams a home-run hitter. I made Hank Severid one of the greatest catchers in the game. When I joined the club Williams was not a great hitter. He not only was a mediocre ball player, but he was too stubborn to be helped in any ordinary way. I found him trying to place his hits. It was ridiculous to see a potentially great right fielder trying to place singles in left field, but when I tried to persuade him to change he laughed at me. I then took two pitchers into my confidence, gave them a basket of baseballs and they pitched to Williams for hours, always keeping them inside. Finally Williams found that he could hit them over the fence. He put a basketful over the right field fence one day. I had made him a great home run hitter."

"Severid was about as stubborn in his catching ways as Williams had been as a hitter. And Severid was known as the greatest double play hitter in the league when I joined the Browns. I used strategy to get him to change his bat and his batting style, and that made him a great hitter. Gradually I got him out of his ancient ways of catching and today he is a great catcher. And I take credit for that."

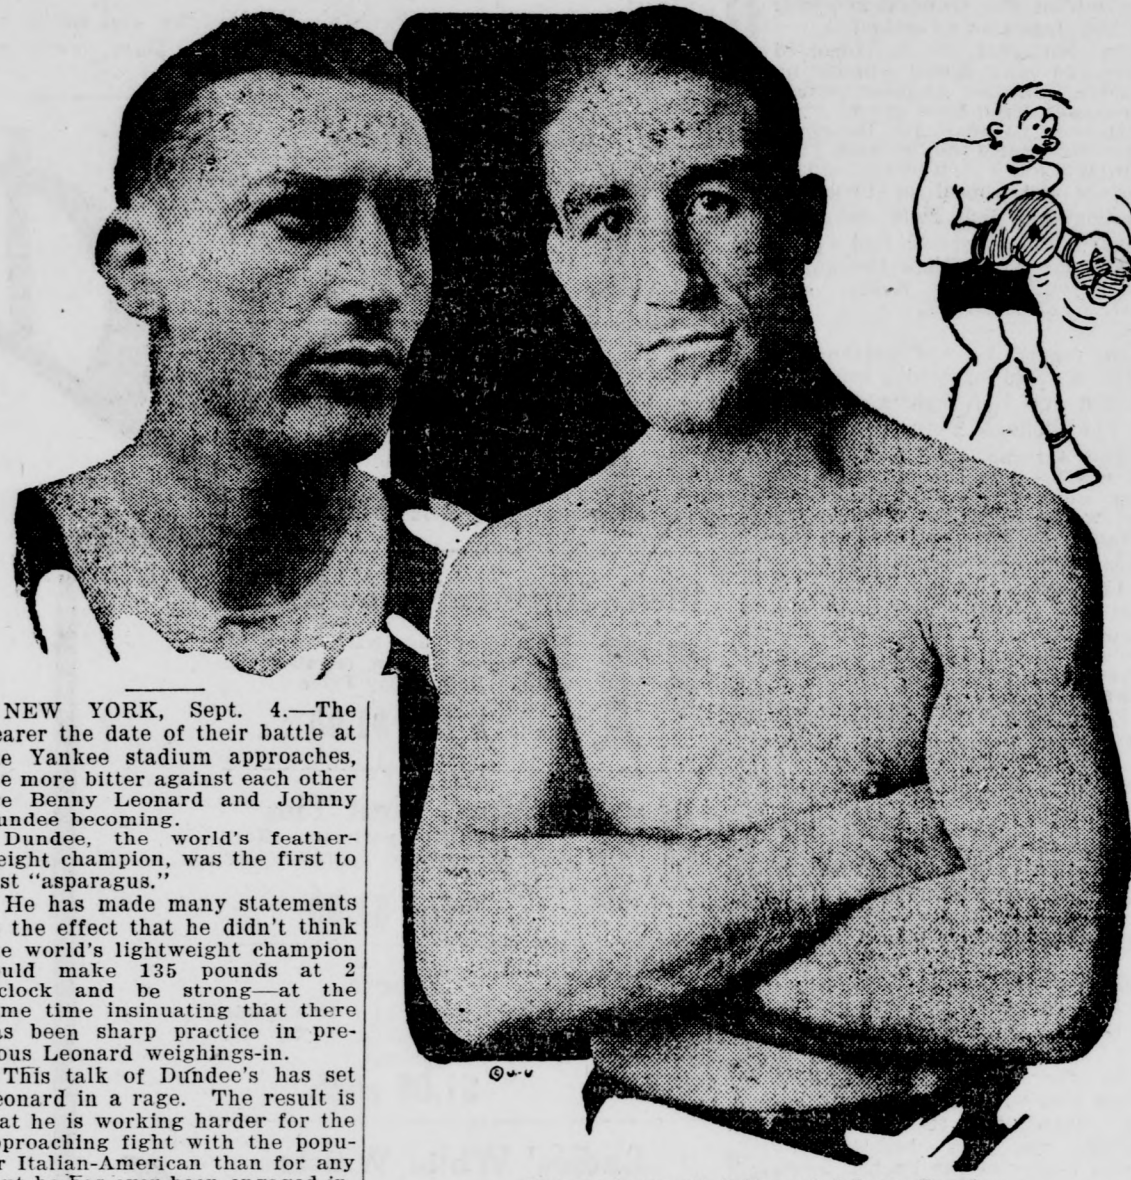

"I can go right down the line and tell how I made good players out of men who were only mediocre performers when I joined the Browns. Sisler was the only developed star I had to work with."

John (Dots) Miller is up at Saratoga, N. Y., waging the same fight against tuberculosis that Matty fought for several years. Miller, it will be recalled, paired with Hans Wagner around second base when the Pittsburgh Pirates won the National league pennant 14 years ago. Last year he managed the San Francisco team and this year he had the same team full game in the lead when he was forced to quit.

Miller acquired his nickname, Dots, when still a youngster. His father, a sport-loving German of St. Louis, would applaud whenever Jack made a good play and say to nearby fans, "Dots my boy Jack." And from that came the name he carried throughout his baseball career.

With a thousand thoughts in your mind you may have only one to fall back on.

## SPORTS CHATTER

By BILL UNMACK  
PACIFIC SPORTS SERVICE

Considerable water has traveled under the bridge since such performers as Ad Wolgast, Harlem Tommy Murphy, Jack Britten and Willie Ritchie were in their palmy days, and yet a lad who boxed all these chaps of their time and ilk recently won a bout in Los Angeles against a youngster. The veteran was Oakland Frankie Burns, than whom few ever possessed a more educated left fist. And while the boxers that Burns used to meet a decade ago have all passed out of ring affairs, Frankie, like the famous brook, apparently goes on forever.

Last fall when two former members of the University of California football team joined the Olympic club football squad they stipulated that they would not play against their alma mater. This year, in order to forestall anything of this kind, Coach Bob Evans of the club team has made the announcement that any man who enlists to play on the club team must play in all games required of him, unless he is incapacitated in any way.

There was considerable discussion last season over the action of the two men mentioned. Some thought that they did the right thing in not contributing to a possible defeat of their old team.

The proposed trip that James W. Coffroth, president of the Tijuana race track and former fight promoter, intends to make to the East on or about the first of September is taken by Pacific Coast sports as an indication that he is angling for one of the big championship fights among the heavyweights for his track.

Coffroth is not a man who makes any wild goose chases and he generally has a mighty good idea of the lay when he starts to do a thing. The announcement of his trip merely corroborates what was said in this paper a few days ago in connection with the possible return of Coffroth as a promoter of big fights.

## The World Over

By FRANKLIN B. MORSE  
PACIFIC SPORTS SERVICE

Baseball is not the only sport which can boast of the "lively" ball. Golf officials here and abroad are already at work in an effort to curb the activities of the golf ball manufacturers and the resultant long game of some of the experts.

When the golf ball was standardized it was thought that this would put an end to the lively ball, but the manufacturers were little bothered by the restrictions and the ball is getting faster. The most difficult courses are now being played by crack players in low scores and course records are being broken so fast that they are becoming a common occurrence rather than a notable achievement.

One of the suggestions which is being given considerable thought by the officials is the abolishment of the soft centered ball. It is the soft centered ball which is stimulating the long game.

The building of the great University of California stadium is an engineering feat which no other college structure of the same kind entailed. The whole side of a rock hill is being chewed away so as to set the great bowl into place in a draw known as Strawberry canyon. Great progress has been made during the summer and the builders are confident that it will be all ready for the big games of the coming season.

It will be known as the California Memorial stadium and will be dedicated to California's heroes of the Great War. Architecturally beautiful, the stadium will constitute an integral part of the bay and the Golden Gate may be had. The wall, at its northern end and southerly ends merges into the mountain which has been cut away to contain it. The seed for the turf, a special Canadian and American mixture, will be sown in about two weeks.

Many illiterate women in New York will be kept from voting as a result of the new literacy law adopted in New York state. Here, therefore, illiterate women had the privilege of voting merely because they had married husbands who had become naturalized. Although in these cases many of the men had, by night school work, prepared themselves for citizenship, the wives had not and it is these who will be hit.

## Urges Travelers to Get Passports Early

In obtaining a passport prior to traveling abroad apply in plenty of time, says the state department. If one lives in or near New York, time may be saved by applying at the Passport Bureau in the Custom House there. If near Washington, apply direct to the Passport Bureau of the State Department. If the prospective traveler lives some distance from either of these centers he should apply to the clerk of the federal or state court, who will supply the necessary blanks and give assistance in filling them out and advise as to fees, necessity of two photographs, two by three inches, and the listing of countries that will be visited. In these days of income taxes it is also well to get that matter under way in plenty of time also, as payment of income taxes must be shown to the satisfaction of the government before leaving the country.

## Early Indian Pottery Puzzle to Science

Science is confounded and seriously puzzled in the study of the pre-historic American Indian by the wonderful type of pottery made apparently by those who inhabited the Mimbres valley in New Mexico. The ceramics of this lost race were found in 1913, but Dr. J. Walker Fewkes, chief of the Bureau of Ethnology of the Smithsonian Institute, has recently returned from an investigation in the valley and reports that he has found absolutely nothing of value in addition. The figures found show representations of life full of action, and the scientists cannot understand how the ancient inhabitants were able to achieve the accuracy and perfection of the involved designs without the aid of mechanical devices.

## New Literacy Law Is Hard on Women

Many illiterate women in New York will be kept from voting as a result of the new literacy law adopted in New York state. Here, therefore, illiterate women had the privilege of voting merely because they had married husbands who had become naturalized. Although in these cases many of the men had, by night school work, prepared themselves for citizenship, the wives had not and it is these who will be hit.

WHERE BRAND MEETS WILSON

## ROBBER ESCAPES AT GUN'S POINT

Makes Getaway When He Is Surprised in Act of Entering House

(Continued from page 1)  
field turned on an electric switch outside his own door and flooded the courtyard with the illumination from about six overhead lights.

**Threatens With Gun**  
Taken by surprise, the stranger wheeled around, pulled an automatic out of his hip pocket, and, covering Mr. Butterfield, ordered him not to move. He then backed through the courtyard and passed down a cement driveway on the opposite side of the house.

A good description was obtained in the well-lighted courtyard. The "visitor" was about five feet eight inches in height and about 40 years of age. He was wearing a dark suit and a slouch cap.

"This fellow knew his business all right!" exclaimed Mr. Butterfield this morning. "I watched him for three or four minutes while he went around the house to see that no one was at home. I presume he thought that we had gone out for the evening."

**Overlook Cash**  
About a mile and a half away a burglary job was "pulled" at 912 North Pacific avenue at the home of Mr. and Mrs. Walter Warren, who recently moved here from Hollywood. They returned home from a local theater about 8:45 p. m. and found the bedroom ransacked. Contents of a trunk had been scattered promiscuously. Eighty dollars in cash was overlooked in the search. Articles taken consisted largely of jewelry. Among the items taken were four rings, a wrist watch, an electric fan and an electric iron belonging to Mrs. Warren, and a large topaz ring, three stick-pins, a couple of sets of cuff buttons, a suit of cloths and a pair of white flannel trousers belonging to Mr. Warren.

On account of the fact that this new home is the last one on the east side of Pacific avenue on the south side of the wash, it is believed that the burglar had no fear of being disturbed. Evidence shows that he attempted to jimmy the rear screen door. Failing to accomplish this purpose, he got in through a rear window. He had gone before Mr. and Mrs. Warren returned.

**Will Another One**  
The Calvin Whiting home at 512 North Kenwood street was molested also. Mrs. Whiting is now spending several weeks at Hermosa Beach. Mr. Whiting returned early last night from a week-end there and went to a local theater. When he returned home about 10 p. m. he was surprised to observe that a window had been raised and the screen removed from a bedroom window.

An investigation revealed the fact that the rear door and a side door were both unlocked.

The corporation is closed with the following officers selected: J. H. Folz, president; R. F. Blakey, vice-president; Robert F. Adams, secretary-treasurer, and manager. Attorney Leslie R. Tarr prepared the articles of incorporation.

## PRISON FOR LIFE

LOS ANGELES, Sept. 4.—Convicted of slaying his one-time friend, Felix Beyer, in revenge for a beating received more than two years ago, Thurman Boatwright was to be sentenced today to San Quentin penitentiary for life.

## THE THEATRES

### THE GLENDALE

Today is the second annual "Alice Calhoun Day" at the Glendale Theatre, when Miss Calhoun will be present in person, at both of the evening performances, and, in addition, will be seen in her newest picture, "The Man Next Door," by Emerson Hough, author of "The Covered Wagon."

The picture was directed by Victor Schertzinger, one of the greatest in the profession, the man who is credited with discovering Charles Ray. Vitaphone releases the production.

"The Man Next Door" is romance, and adventure, brim-full of suspense and heart interest, and, above all, overshadowed by the sweet, wholesome, lovable character of little Alice Calhoun, who plays the role of "Bonnie Bell," daughter of Old Man Wright—a healthy outdoor girl, who can shoot, ride and rope a steer; later transformed into a young debutante in an eastern finishing school.

Supporting Corinne Griffith and Conway Tearle, in the splendid cast of this Selznick picture, are Phyllis Haver, Elliott Dexter, Miss Du Pont, Harry Myers, Hobart Bosworth, Bryant Washburn and Doris May.

News Want Ads produce results

The bedrooms showed evidence of having been ransacked.  
An odd circumstance, in the opinion of Mr. Whiting, is the fact that a valuable case belonging to Mrs. Whiting and containing insurance papers and similar documents was removed from her secretary and cached partly under a garage and partly under a rose bush. It had not been opened.  
The exact amount of loot taken cannot be ascertained until the return of Mrs. Whiting. Mr. Whiting believes that it consisted of two suits of clothes. He believes it possible that some silverware, which was wrapped in tissue paper, may have been stolen. He was pleased to notice that a Princeton class pin, which is worth about \$25, was not taken. This is valued because Mr. Whiting was a classmate of ex-President Woodrow Wilson.

**This Home, Too**  
Surprised to find the front door at their home at 823 North Brand boulevard wide open, upon their return about 11:45 p. m., Mrs. Catherine Gies and her daughter, Miss Ada Gies, investigated and found that the house had been entered. Until the return of a daughter, Mrs. W. A. Willis, from Laguna Beach, Mrs. Gies will be unable to ascertain positively if anything was taken. She is of the opinion that two articles of jewelry were stolen.

This home is in the midst of a hundred-foot lot on the southwest corner of Arden avenue and Brand boulevard. It is believed that the burglar was disturbed before he had time to do more than ransack the upper rooms and that he climbed out of a second-story window and made his escape unnoticed in the shrubbery.

## SUPERIOR PTC. CO. IS INCORPORATED

Local Firm Names Officers; Opens New Quarters on East Broadway

The Superior Printing company, which is being incorporated for \$50,000, is now established in commodious quarters at 610 East Broadway, where a general program of expansion will be carried out. Office supplies will be handled in addition to commercial printing, it is stated. An outside salesman will cover the local field.

The corporation is closed with the following officers selected: J. H. Folz, president; R. F. Blakey, vice-president; Robert F. Adams, secretary-treasurer, and manager. Attorney Leslie R. Tarr prepared the articles of incorporation.

LOS ANGELES, Sept. 4.—Convicted of slaying his one-time friend, Felix Beyer, in revenge for a beating received more than two years ago, Thurman Boatwright was to be sentenced today to San Quentin penitentiary for life.

The corporation is closed with the following officers selected: J. H. Folz, president; R. F. Blakey, vice-president; Robert F. Adams, secretary-treasurer, and manager. Attorney Leslie R. Tarr prepared the articles of incorporation.

## PRISON FOR LIFE

LOS ANGELES, Sept. 4.—Convicted of slaying his one-time friend, Felix Beyer, in revenge for a beating received more than two years ago, Thurman Boatwright was to be sentenced today to San Quentin penitentiary for life.

## THE THEATRES

### THE GLENDALE

Today is the second annual "Alice Calhoun Day" at the Glendale Theatre, when Miss Calhoun will be present in person, at both of the evening performances, and, in addition, will be seen in her newest picture, "The Man Next Door," by Emerson Hough, author of "The Covered Wagon."

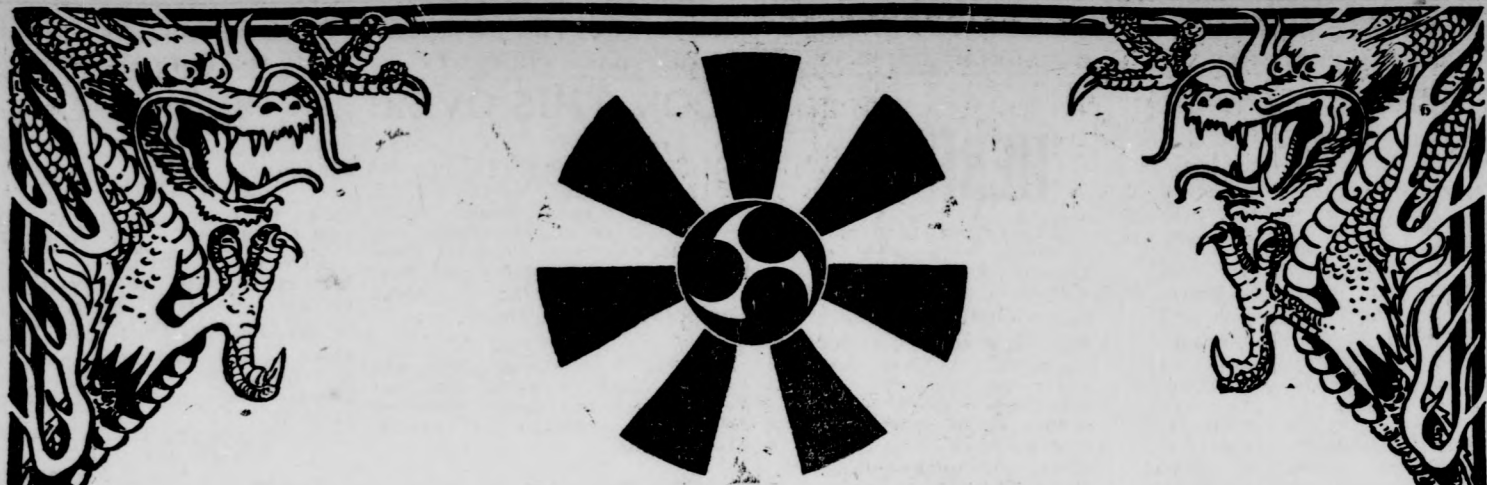

The picture was directed by Victor Schertzinger, one of the greatest in the profession, the man who is credited with discovering Charles Ray. Vitaphone releases the production.

"The Man Next Door" is romance, and adventure, brim-full of suspense and heart interest, and, above all, overshadowed by the sweet, wholesome, lovable character of little Alice Calhoun, who plays the role of "Bonnie Bell," daughter of Old Man Wright—a healthy outdoor girl, who can shoot, ride and rope a steer; later transformed into a young debutante in an eastern finishing school.

Supporting Corinne Griffith and Conway Tearle, in the splendid cast of this Selznick picture, are Phyllis Haver, Elliott Dexter, Miss Du Pont, Harry Myers, Hobart Bosworth, Bryant Washburn and Doris May.

## Personal Appeal to American Friends, Citizens and Our Patrons—

—World disaster has befallen Japan! Earthquake, tidal wave and fire totally destroyed Yokohama and Tokio and the surrounding towns and villages. Many hundred thousands of lives lost and many million homeless and now facing starvation.

—In order to help them at this very hour means CASH, of which we poor merchants seldom have a superfluous supply on hand. We are offering our entire stock on sale at regular price, and 10 per cent of entire receipts will be donated to relief committee of the stricken cities.

—Come, and trade with us and help us help them out.

—Your assistance at this time will be greatly appreciated by myself, as well as all the Japanese in the community.

### Wounded Vet Under Dual Nature, Claim

SATTLE, Sept. 4.—With a strange story of a dual personality as a result of a wound received during the World war, Hayward Thompson, former gunner in the Fifth Marines, registered at a local hotel.

Thompson's second personality first became known, he says, when he was working in Camden, N. J., in November, 1921. Under the spell of a slight brain lesion he changed his name to Thomas A. Anderson, and worked steadily as that individual for several months.

Last February, Thompson says, he was in Denver, when an old army pal accosted him in a hotel lobby.

"Something in my brain snapped," he stated, "and I was unable to understand how I came to be in Denver. My original personality of Thompson returned."

Since that time, Thompson claims, he has been able to perform a number of unusual things, including the finding of lost articles and the driving of an automobile, while he is blindfolded, through city traffic.

Thompson says that physicians have attributed his peculiar manifestations to a wound made in his head by a fragment of high explosive shell. For many months he was in various army hospitals throughout the country.

The spiny evergreen shrub is used for fuel in Brittany and the tender shoots for forage.

Roses are largely cultivated on the southern slopes of the Balkans.

## California's Natural Wealth And Opportunities Show at State Fair In Sacramento

By International News Service Staff Correspondent

SACRAMENTO, Sept. 3.—California in realistic replica was unveiled here Saturday before thousands of visitors who attended the opening day of the sixty-ninth annual state fair. The state's natural wealth, its industrial and agricultural development, the romance of its creation and a vision of its future greatness—these are the highlights of the colorful exhibits which are presented at the 1923 exposition.

Here, for the next seven days, Californians will focus their eyes on the splendid majesty of their state as it is reproduced by the thirty counties participating in the big fair. Here, also, they will catch again that spirit of progress which was born of the gold rush, and reborn during this city's mammoth "Days of '49" celebration.

**City in Gala Attire**  
Instead of the slab-sided country stores, the bearded gentry and hoop-skirted belles of the '49 fete, the visitors who attended the fair today found the exposition city decked in gala attire and offering a modern welcome. But the "get-together" spirit conceived in an awakened consciousness of California's needs and her great possibilities, was again predominant.

It is a bigger show than that of last year and one more truly depicting the wealth of the state. The live stock exhibits are more numerous and divided among a larger number of exhibitors. The Herefords preponderate in the beef cattle and the Jerseys in the dairy bluebloods. Of the latter, there are 121 entered in the various classes, while the Herefords will run over 200 in number.

**Show Many More Horses**  
The light and heavy horses in the breeding classes exceed those of last year, and the show horses are double those of 1922. The same ratio holds as to the number of exhibitors. The horse show will be one of the main features every night.

The fastest and best-known racing horses of the West are here to contest for the \$15,000 hung up in purses. The racing card, which began Saturday with one of the four \$1500 futurities, is the best that the state fair track has ever known.

In Agricultural Pavilion, California's galaxy of counties present booths telling the industries and wealth which is theirs. They answer to the roll call as follows:

**Counties Represented**  
Alameda, Amador, Calaveras, Colusa, Contra Costa, Fresno, Glenn, Kern, Humboldt, Kings, Lassen, Los Angeles, Mendocino, Modoc, Placer, Sacramento, San Francisco, San Joaquin, San Mateo, Santa Barbara, Santa Clara, Napa, Shasta, Siskiyou, Solano, Sonoma, Stanislaus, Trinity and Yolo.

A most pleasing design combination of color, design and utility is presented in the Fresno county exhibit. About a quaint Dutch windmill in action are grouped the varied products of that rich county. The booth is beautifully wrought and painted in delicate light blue, white and gold.

Yolo county old-time rival of Fresno, also has outstripped her in this year's exhibit. Her booth is full of everything that is grown in that county, and it boasts that it raises everything that can be grown anywhere in the state. The ensemble of products are logically arranged and tastefully presented. There is a background of pictured champions in live stock, as well as transparent pictures silhouetted with striking effect.

**"World of Opportunity"**  
Solano's revolving atlas represents a world of opportunity in that county. The rainbow with pots of gold at either end carries out the idea of the "Eden of California." Within the booth are the products grown in the county strikingly arranged.

Sacramento's mesas of orchards in the foothills feature this county's exhibit. In the distance are the snow-capped Sierras. A sun rises over the Sierras, melting the snow and sending the water to the plains to grow the grain, alfalfa and other soil products.

One of the outstanding features of the Placer county exhibit is its fine pottery of wonderful art and coloring, wrought from its native clays. Besides this the county is showing its minerals, horticulture, agriculture, and, particularly, co-operative manufactures, in a unique Moorish booth.

### Files Suit for \$10,000 Against Police Chief

Ten thousand dollars' damages are asked by B. R. Sims of 319 Ivy street, according to a suit filed in the superior court, against Col. J. D. Fraser of 643 North Maryland avenue, chief of the Glendale police department.

"On or about the first day of August, 1923," states the complaint, "the defendant appeared before F. H. Lowe, police judge of the city of Glendale and then and there filed a certain charge in writing and under oath against the plaintiff, wherein the plaintiff was charged with operating a certain police patrol within the city limits of said city of Glendale without any license under the laws and ordinances of said city, did then and there procure and cause said F. H. Lowe, as such police judge, to issue a warrant for the arrest of the plaintiff."

"In doing so the defendant acted maliciously and without probable cause."

Following an agreement with Judge F. H. Lowe, after which the case against him was dropped, Mr. Sims disposed of his interest in his private patrol.

### COUPE IS STOLEN

Vernon C. Dennis of 415 Riverdale drive early last night reported the theft of his Ford coupe.

Stanislaus county has its grains, fruits, forage, dairy products, melons and other products displayed to advantage under a canopy of wheat sheaves and flanked by fine specimens of corn and other grain and several different kinds of alfalfa.

Kings county carries out the monarch idea with a king on his throne surveying before him a wealth of products of the soil and hand. The sceptered sovereign is the piece de resistance of the booth. Gathered before him are his agricultural, horticultural, viticultural, grain and other subjects of the kingdom of Kings.

From Los Angeles way comes the avocado, the pulpy fruit which is favored for salads. In addition to this fruit, Los Angeles shows citrus fruits and vegetables.

**Bay Features Bridges**  
The Golden Gate and Dumbarton bridge projects, the first to cost \$20,000,000 and the latter half as much, are featured in the San Francisco display. Industry and Greater San Francisco of the future are depicted by the artist's brush with realistic effect. The perspective of the bay region makes an instructive picture.

The East Contra Costa irrigation system with its pumps raising the water to the land is shown in miniature in the Contra Costa booth built of finished redwood native to that county.

San Joaquin county is back with her big display of grain, fruits, grapes and a score of other soil products that grow abundantly there.

Corn is featured in the Colusa county exhibit. Unusual specimens of that product, which is comparatively new in California, attract the throngs to the possibilities just beginning to be exploited in this state.

**Flowers From San Mateo**  
Flowers, nature's most beautiful and pleasing bestowal, are the chef d'oeuvre of the San Mateo booth. They are drawn from the finest gardens on the peninsula.

Alameda is showing where water and rail meet with telling effect. Shipping and manufacturing share with agriculture and horticulture in importance there. The growth of the harbor is stressed.

Lumbering and shipping share honors with dairying, horticulture and agriculture in the Humboldt county exhibit.

Kern county has built an exhibit with which she expects to walk away with first honors. Four model farms in miniature represent the outstanding feature of the display.

In addition to numerous other county exhibits, other attractions are the automobile show, mining exposition, poultry, farm power, machinery, tractors, trucks and the exhibits of the public schools.

### Southland Cities to Greet Pacific Fleet

LOS ANGELES, Sept. 4.—Preparations are now declared completed both here and at San Diego, to welcome back to home waters the Pacific fleet, due here Sept. 10, after a period of maneuvering in north Pacific waters.

Mayor Cryer has requested all downtown merchants to decorate their stores for the occasion and give the sailors a rousing welcome. The mayors of the welcoming cities will unite in a manifesto of welcome, which will be inscribed by several thousand southern Californians and presented to the accompanying admiral.

### First Lecture Held at E. R. A. Polyclinic

The educational department of the E. R. A. Polyclinic held its first lecture last Friday night, with James H. Fisher speaking on the "Foundations of Science." Mr. Fisher said in part:

"There is a common oneness to all matter whether it be inanimate or animate. All life, in a sense, is a huge family. Connected and inter-related. And the same holds good with all matter and force."

"Whether science analyzes the rays of the sun or divides the molecule, it is with the same result, a common substance, a common unit."

"Everything is in motion, in vibration. And science proves that this motion, from electron to milky-way, has a sameness."

The next lecture at the clinic, situated at 903 South Central, will be on Friday, Sept. 14.

### Escape Cloudburst in Hills at Lytle Creek

W. L. Twining, of Twining & Myers, 227 1/2 South Brand boulevard, accompanied by Walter Jones of Canada boulevard, spent the holidays at Lytle Creek. During their stay they narrowly escaped being caught in a cloudburst that broke in the hills above their camp and came roaring down the creek in a wall of muddy water.

Gasoline tractors are replacing switching engines on some railroads.

## WIDEN CENTRAL TEN FEET, PLEA

Harry Hague Says Improvement Plan Should Look To Future Needs

Harry Hague, speaking for officials of the Central Avenue Improvement association, this morning stated that it is the intention of those looking to the future of this particular boulevard to have a 10-foot set back line ordered at this time, the paving of the avenue from curb to curb at present, and the completion of the plan, perhaps five years later.

It is understood that other Central avenue property owners are desirous of having the street widened four feet on each side now, rather than waiting for the larger improvement. Mr. Hague and others object to this latter plan because it will cause the trees on Central avenue to be uprooted and the street made undesirable for some years as a residential street.

"We should look to the future rather than the commercial enterprise of today," he said. "Ten feet additional on each side of the street will make Central avenue worth while as a traffic artery. Four feet will be little better than at present. I would advise property owners to stay by the plan of the improvement association until we can thresh out this question. Do not sign petitions of objection to our program until then."

### PLANS LONG SWIM

LOS ANGELES, Sept. 4.—Gordon Ralls of Avalon will attempt to swim next Sunday from San Pedro to Catalina island, a distance of twenty-eight miles, it was announced today. C. A. Banfield of Los Angeles made an unsuccessful attempt to swim the channel yesterday.

Sugar cane alcohol is used in South Africa as a substitute for gasoline.

### What the Kidneys Do Their Unceasing Work Keeps Us Strong and Healthy

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely, but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But, if you keep the filters right, the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

J. M. Smith, 1571 East Thirty-third St., Los Angeles, Calif., says: "Doan's Kidney Pills put my kidneys in good condition and I gladly recommend them. I had severe backaches that made it difficult for me to do any stooping or lifting. My kidneys acted irregularly. I used Doan's Kidney Pills and they soon cured me. My back is now well and strong and I have had no further trouble." 60c at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advertisement.

### Beet Factories Busy, Says C. C. Secretary

Secretary E. F. Sanders and membership Secretary G. Clay Goodloe of the Glendale Chamber of Commerce, have returned from the monthly meeting of the Commercial Secretaries of Southern California, held at Oxnard last Saturday. During their stay at Oxnard they visited the sugar beet factories where the crop for this year is already being converted into sugar.

One of the matters that received serious consideration at the meeting was the steps to be taken to protect merchants from the competition of itinerant firms that establish themselves temporarily in various towns and cities during the seasonal activities of the regions selected, at a time when the greatest amount of money is in circulation, and that leave as soon as the rush of business is over, without contributing anything to the taxes of the cities where they operate.

### Demand for Gorillas Sends Price Climbing

HAMBURG, Sept. 4.—Unprecedented demands for gorillas for gland operations have shot prices for those animals almost out of sight on Hamburg's menagerie market. The average price is now \$3,000 per animal.

The king of the jungle, the lion, brings an average price of only \$1,250. Giraffes and rhinoceri, however, being scarce, cost \$5,000 to \$6,000.

### Old Yale Landmarks May Be Razed Soon

NEW HAVEN, Conn., Sept. 4.—Antiquarians are watching the proposed destruction of a row of stores on Chapel street, opposite Yale University, property which once was the home of Roger Sherman, signer of the Declaration of Independence. The original homestead is hidden behind a one-story addition, and for many generations has known the tramp of feet of Yale students, whose favorite photographers and clothiers have been quartered there.

## FAMINE HAUNTS PROSTRATE EMPIRE

Refugees in Battle With  
Soldiers for Food;  
Death List Grows

(Continued from page 1)  
commandeered all food, medical and building supplies and is conscripting thousands of coolies for rescue work under military supervision.

Figuku, Azuma and Mumaya bridges, heavy traffic thoroughfares of Tokyo, collapsed yesterday under the weight of thousands of fleeing refugees. Heavy loss of life resulted.

Among the cities and villages known to have been completely wiped out with fearful loss of life, are: Kamakura, Odawara, Hachioji, Chiba, Kawaguchi, Kofu, Gotsu, Koyama, Misima, Atima, Ito, Yokosuka and Shimoda.

Hommoku and Isoko, summer resorts, and the island of Enoshima have been swept to their doom by a gigantic tidal wave. Thousands of lives were lost.

Bonin and Oshima islands, off the Edzu peninsula, are reported to have disappeared.

The mountains of Kamoyama, Noreyama and Iseya, on the Izu peninsula range, have crumbled as the result of a terrific upheaval.

Trans-Pacific liners President Jefferson of the United States shipping board fleet, and the Empress of Australia, of the Canadian Pacific line, have not been heard from since the disaster. Both vessels were in Yokohama harbor at the height of the tidal wave and typhoon of last Saturday.

The steamer Korea Maru is reported safe in Yokohama. Two thousand three hundred refugees are on board.

American warships of the Asiatic fleet, under command of Rear-Admiral A. E. Anderson, are rushing assistance and supplies to Japan from all points of the far east. The United States war vessels will be placed at the disposal of the Japanese government for relief and police purposes.

The capital of the empire has been temporarily moved from Tokyo to Osaka.

## QUAKE BLESSING TO JAPAN, CLAIM

Native of Stricken Kingdom  
Predicts Greater Cities  
Within Few Years

BERKELEY, Sept. 4.—"The destruction of Tokyo and Yokohama is a great blessing to the Japanese."

So said Professor Y. S. Kuno, of the University of California today. He is head of the department of Oriental languages, and is one of the best-known Japanese educators in America.

"The great loss of life and misery caused by the catastrophe is deplorable. But, in the long run, the earthquake and fires will prove an inestimable benefit to the empire," he said.

**Cities Congested**  
"Tokyo and Yokohama were engaged in commerce and international business on a modern scale. They were immeasurably handicapped because they were ancient cities. The populations were huddled together without modern sanitation or street improvements."

"This jumble of new and old was not favorable to the modern business."

"With the burning of the antiquated houses and the razing of old institutions, an opportunity is presented for renovation of the areas on modern lines."  
"Viscount Shimpei Goto has been appointed head of a staff of experts which will draw plans for the reconstruction of Tokyo, and in three or four years the city should be completely modernized."

One gram of attar of roses will give off scent for more than 100 years, perfumers claim.

Charcoal will absorb 3000 times its volume of gas.

## MARKETS

NEW YORK, Sept. 4.—The stock market closed weak today. Heavy selling orders depressed the list from one to over three points. American Can closed 2½ points lower at 96½. Gulf States Steel rallied to a final close of 76½, over one point net lower. Steel finished at 91½, a loss of one point. Baldwin was 2 points lower at 122½. Corn Products at 125½ and Bethlehem at 52½, nearly 2 points lower later. The threatening foreign news, the Japanese disaster and the coal strike were all used as factors by the bears. Government bonds unchanged; railway and other bonds weak.

Sales of stocks today were 597,500 shares; bonds \$7,134,000.

**In Grain Markets**  
CHICAGO, Sept. 4.—Light demand from the seaboard counteracted firmness in the grain market in sympathy with Liverpool at the opening and helped toward a weak close. Wheat was off, but corn developed an individual strength on active buying by shorts and elevator interests. Wheat closed ½ to 1c off. Corn was up ½ in September and December, but off in the May position. Oats were ¼ up to ½ off. Provisions were unchanged to 2c off.

## PRESIDENT ISSUES RELIEF PROCLAMATION ON JAPAN

WASHINGTON, Sept. 4.—President Coolidge has issued a proclamation to the American people, asking them to contribute to a fund for the relief of the Japanese population in cities which have been devastated by earthquake and fire. The president's appeal follows:

**TO THE PEOPLE OF THE UNITED STATES:**  
An overwhelming disaster has overtaken the people of the friendly nation of Japan. While its extent has not as yet been officially reported, enough is known to justify the statement that the cities of Tokyo and Yokohama, and surrounding towns and villages, have been largely, if not completely, destroyed by earthquake, fire and flood, with a resultant appalling loss of life and destitution and distress, requiring measures of urgent relief.

Such assistance as is within the means of the executive department of the Government will be rendered; but realizing the great suffering which now needs relief and will need relief for days to come, I am prompted to appeal urgently to the American people, whose sympathies have always been so comprehensive, to contribute in aiding the unfortunate and in giving relief to the people of Japan.

In order that the utmost co-ordination and effectiveness in the administration of relief funds be obtained, I recommend that all contributions, clearly designated, be sent to the Chairman of the American National Red Cross chapters for transmission to Japan.

## Consul at Yokohama And Wife Are Dead

(Continued from page 1)  
Kobe loaded with refugees.

The report of the master of this vessel, according to the Davis dispatch, said:  
"Yokohama completely wiped out by earthquake and fire. Tokyo and Yokosuka also. Refugees reported Nisuiyashita and Hamae line offices ruined, according to dispatches, but all employees safe."

**In Need of Supplies**  
"Do not accept traffic for Yokohama, but route all ships there to render all possible assistance in giving supplies. I am returning to Kobe with 350 destitute refugees. Sailing from Kobe to Seattle as soon as possible. Effort last seen at Grand hotel, but whereabouts unknown. Ackerman whereabouts unknown (believed to be representative Ackerman Steamship company of New Jersey). Esting and wife safe aboard. Fires are still burning."

"United States consul at Yokohama and wife are dead. Casualties among foreigners are very numerous. Will publish list survivors arrival Kobe. Empress of Australia disabled. Empress of Canada arrived Monday with freight and also landing supplies and taking sick and wounded. All houses on bluffs and Grand Hotel Oriental are gone."

"Suggest Asiatic fleet send fast ships at once. Relief urgently needed. Also doctors, nurses and medical supplies. Publish a navigation warning to all ships that lights approaching Yokohama are all out north of Nishino Ashta. Unsafe approach inside breakwater Yokohama, bottom came up."

**Cattle Rustlers Are Active in Arizona**  
PHOENIX, Sept. 4.—Cattle rustling, the greatest outdoor sport of Arizona in the early days, is on the increase and something must be done to protect the stockmen or they will all go bankrupt, according to a complaint registered with the Arizona Live Stock Sanitary board by Henry Mitchell, a pioneer of the old Tolleeson range country, who ought to know.

While the sixty state inspectors are making their rounds on cow ponies, the cattle rustlers are putting one over on them by using automobiles equipped with trailers, Mitchell says.

**British Solon Comes for A. F. L. Convention**  
NEW YORK, Sept. 4.—William C. Robinson, a member of parliament from Yorkshire, England, and associated with the British Labor party, who arrived here recently from London, will attend the convention of the American Federation of Labor at Portland, Ore., in October, he said. Robinson declared the unemployment situation to be critical in England and said that most labor leaders blame conditions in the Ruhr.

Heat in houses, offices and stores is usually higher in winter, just when people are dressed more warmly, than the average summer temperature.

American cotton sheetings are the standard in Turkey.

**Great Resorts Destroyed Many Prominent Citizens Dead in Ruins, Is Fear**

WASHINGTON, Sept. 4.—All the principal summer resorts of Japan apparently were wiped out in the great catastrophe, officials of the Japanese embassy said today, after a study of press reports. Three of the empire's greatest resorts, housing the summer homes of Japan's richest merchant princes, were in the group of cities reported destroyed. These were the cities Kamakura, having a population of 18,000, Odawara 28,000, and Hachioji 40,000.

All three were sea coast cities with fishermen's families in the majority of their population. A huge tidal

wave, following the earlier earthquakes, was said to have completely inundated the cities with great loss of life.

Embassy officials today feared for the lives of hundreds of the empire's prominent citizens who are known to spend their summers at country estates along the sea coast. The territory frequented by the wealthier Japanese, the embassy stated, appears to have been practically wiped out.

With scores of villages situated in the devastated area, embassy officials believed fully 10,000,000 people were in the path of destruction.

**Red Cross Will Raise 5 Millions To Help Japan**

WASHINGTON, Sept. 4.—A fund of \$5,000,000 is to be raised in this country by the American Red Cross for relief work in Japan, it was announced at the White House today, following a conference between President Coolidge, Secretary of Commerce and Assistant Secretary of the Treasury Wadsworth.

All plans for the nationwide campaign for funds were approved by the president.

**Harold Benner Home, Tells of Scout Plans**  
Returning from a two weeks' vacation in the mountains of Oregon, Scout Executive Harold R. Benner was at his desk this morning fully rejuvenated and with a dusky coat of tan. This is the first real vacation Mr. Benner has had for three years. In telling of his trip Mr. Benner says:

"We left Glendale Saturday morning, August 18, and motored to Roseburg, Ore., where I have a brother. From Roseburg all of us motored to Portland and on up the Columbia Highway. Returning to Roseburg we spent considerable time in the mountains fishing, swimming and hiking."

Mr. Benner says he met with Scout Executives along the coast visiting their camps and talking over mutual Scout problems.

In speaking of plans for local Scout work in the immediate future he says that the prospects are very rosy for organizing new troops. The Verdugo Hills District now has eleven troops with another one in process of organization, at Tujunga. Mr. Benner is planning to have at least twenty troops going strong before the end of this year, five new troops to be organized here.

## Red Cross Will Raise 5 Millions To Help Japan

Mr. Benner is planning to have at least twenty troops going strong before the end of this year, five new troops to be organized here.

**Oil Company Declares Dividend of 100 Pct.**  
Dividends of over 100 per cent were declared by the Schaff Noble Oil syndicate, at a banquet held Friday night, August 31, in Jensen's Egyptian Village, 133 North Brand boulevard, reports H. E. Noble of Glendale, one of the trustees of the organization.

Two producing wells in the Santa Fe field are owned by the Schaff-Noble Oil syndicate, both at the 4500-foot level, in the Meyer sands. No. 2 came in May of this year and No. 1 followed on May 15. To date, according to Mr. Noble, the two wells have produced 500,000 barrels of oil.

**Chiropodists Urge Greater Use of Feet**  
Unless the residents of big cities, especially New York, use their feet more a race of people with the poorest shaped and smallest feet will develop, according to a committee of the National Association of Chiropodists. The reason is that the conveniences of automobiles and rapid transit such as subways and elevated roads are making a class of non-walkers out of the big city residents.

The board of directors of the Glendale Chamber of Commerce will be asked at their meeting tonight to assist in the preparation of an exhibit of the horticultural and agricultural products of Glendale, to be shown at the Los Angeles County Fair, that is to be held at Pomona from October 16 to 20. Secretary E. F. Sanders has already notified the fair management that the Chamber of Commerce will take the space which has been offered, free of charge, and it is hoped to prepare an exhibit of local products that will show the variety of farm and garden growths raised in this immediate neighborhood.

**Will Ask Exhibit of Glendale Products**  
The board of directors of the Glendale Chamber of Commerce will be asked at their meeting tonight to assist in the preparation of an exhibit of the horticultural and agricultural products of Glendale, to be shown at the Los Angeles County Fair, that is to be held at Pomona from October 16 to 20. Secretary E. F. Sanders has already notified the fair management that the Chamber of Commerce will take the space which has been offered, free of charge, and it is hoped to prepare an exhibit of local products that will show the variety of farm and garden growths raised in this immediate neighborhood.

**Secret Training Is Order in Firpo Camp**  
ATLANTIC CITY, N. J., Sept. 4.—Louis Angel Firpo will do most of his training for the Dempsey bout in secret after tonight. He plans to go through several hours' hard work every day from now on in the garage back of his quarters, and this morning he planned to do about eight miles of fast road work, followed by gymnasium grind and his bouts with sparring partners.

Several new sparring partners will join the camp during the week.

**TOKIO IN ASHES; PEOPLE STARVING**  
Total Dead on Island May Reach 500,000; Martial Law in Effect

(Continued from page 1)  
that habitation was hazardous. Refugees to whom the official residence of Prince Regent Hirohito was thrown open, abandoned the imposing structure. The opening of the White House of Japan violated all precedent.

**Under Martial Law**  
The prince and his official family were reported safe at Nikko. The captain of the Japanese liner Shinyo Maru wireless from Nagoya that this city was "practically destroyed." The population of Nagoya was in excess of half a million.

Martial law is in strict enforcement in both Yokohama and Tokyo.

Numerous shootings for looting have been reported. Gentlemen were forced to use their swords frequently to preserve order when mobs raided food supply stations.

The government of Japan has been established temporarily at Osaka. Numerous valuable governmental manuscripts were destroyed in Tokyo.

American circles here this afternoon are apprehensive of the fate of Congressman Ackerman of New Jersey, who is known to have been visiting in the stricken area. Professor Henry Fairchild Osborne, of the American Museum of Natural History of New York city, also was a tourist in the devastated district. Professor Osborne arrived in Tokyo last Friday, the day preceding the disaster. No word has been received from either of these Americans.

**Convicts at Liberty**  
The Eastern News Agency reported the dead in Tokyo at 150,000.

The scarcity of food is feared to have resulted in consequent disease. To forestall any possibility of plague, the dead of the stricken cities have been piled into heaps and cremated. Funeral services by scores of religious dignitaries were held at each funeral pyre.

The destruction of the Ichigaya prison released its entire body of 5,700 convicts.

## BAN ADOPTION OF HISTORIC NAMES

Patriotic Societies Sue to  
Halt Kabotchnick From  
Calling Self Cabot

PHILADELPHIA, Sept. 4.—Existence of a society to combat the granting of good old Anglo-Saxon names famed in history to persons bearing unpromising names by legal procedure was revealed here in action brought before Judge Audenried by the Society of the Order of Founders and Patriots, the Genealogical Society of Pennsylvania to prevent the name of Harry Kabotchnick from being changed to "Cabot."

The name of Cabot had been decided upon as most satisfactory by the court after careful scrutiny of the cumbersome "Kabotchnick" appellation.

Counsel for the various societies interested also stated that he was there in behalf of several members of the Massachusetts Cabot family, descendants of the famous discoverer and explorer, among them Judge Cabot, of the Juvenile Court of Boston.

Judge Audenried held the matter under consideration.

Following the hearing a representative of the societies explained that they had banded together to prevent persons of foreign ancestry from adopting old English, and American family names. This, he asserted, would not only be misleading, but would cause the assumption of relationships that never existed. The state law of Massachusetts, he added, does not permit the adoption of the name "Cabot" by persons not connected with that family.

**See Harvard Street Sale Windows**

**Brides in Egypt Cost \$4 Around 590 B. C.**  
The earliest marriage contract in Egypt dates from 590 B. C., according to Prof. W. Flinders Petrie, eminent Egyptologist who was recently knighted by King George. The terms of the pact, as drawn up by the husband, were:

"Since God willeth that we should unite one with the other in righteous wedlock, therefore I have given thee four dollars in gold as a bridal gift. And for my part, I will not neglect thee more than as it were my own body. Neither shall I be able to put thee forth without a cause, having legal ground. But should I wish to put thee forth, I will pay seven dollars for the matter."

**Prevent Phthisis in Bank's Printing Plant**  
Control of printers' phthisis in the printing department in the Bank of England as the result of the installation of a vacuum cleaning system is told in the American Journal of Public Health. The apparatus was installed on the assumption that the elimination of dust would prevent the spread of tuberculosis among the workers. No new cases have developed in the two years the cleaner has been watched in operation, although five new cases resulted, one fatal, in another similar plant that did not install the system and which was used for observation and comparison. The conclusion is that phthisis may be prevented in printing shops if preventive measures are taken.

**Great American Novel Unlikely, Says Savant**  
COLUMBUS, Ohio, Sept. 4.—"America cannot be put into a book," asserts Professor Joseph Denney, head of the English department, Ohio State University, who doubts whether the "great American novel" ever "will arrive."

"People who have believed in the coming of the great American novel have collectively made up a sort of recipe for it, each contributing an essential ingredient," Professor Denney declared. "It must be written by a real American. It must envisage America in theme, motifs, characters, life pulse, national aspiration and natural scenery and background. It must be, most of all, a genuine work of art, adequate in structure to the greatness of the conception embodied."

"This is a large contract," continued Professor Denney. "I am afraid that some essential will be left out when the work stands complete. America cannot be put into a book. Life is bigger than literature."

**Liquor Ban Aids Sale Of Precious Stones**  
LONDON, Sept. 4.—Prohibition is giving a flip to the British diamond jewel merchants, who declare that people in the United States—unable to spend their money on booze—are spending it on jewelry and precious stones instead.

They state that lately there has been a marked demand for precious stones of the cheaper variety from a section of the American public which hitherto has not displayed any desire for personal adornment of this sort.

Prohibition is entirely responsible for this, they declare, their view being that enforced abstinence leaves the middle and industrial class of the United States with money to burn, and this they are spending in jewelry and precious stones.

## HARROWER OPENS JAP RELIEF FUND

Glendale Evening News Will  
Accept Contributions to  
Aid Sufferers

The account of the Japanese disaster, in which earthquake and fire have taken a toll of lives unparalleled in any tragedy of recent years, has stirred the sympathies of Glendale people, as well as those in other sections of America, as nothing else has ever done, and offers of financial assistance are already being made on a generous scale.

The first Glendale citizen to demonstrate his sympathy in an active manner is Dr. Henry R. Harrower, 1516 East Broadway, of the Harrower Laboratory at 920 East Broadway, who, after reading the story of the tragedy in last night's Glendale Evening News, at once offered his check for \$100 to A. T. Cowan, the publisher of the paper, with instructions to use it as the basis of a fund to be raised here or to send it to whatever agency could be depended upon to act most quickly in transmitting it to the sufferers in Japan, who are homeless and starving as a result of the holocaust that has stricken their country.

### Knows Conditions

Dr. Harrower's intimate knowledge of conditions in foreign countries, gained through years of close touch with persons in those nations, and, also, by personal visits, enables him to judge more accurately than is possible from any newspaper report of the misery that exists as a result of the Japanese disasters. The overcrowded condition of the people, the poverty that grips them year in and year out, and the standards of living that compel them to exist on a plane far below that to which Americans are accustomed, all contribute to turn an event like the Tokio earthquake and fire into a tragedy that, in a brief time, can take a toll of millions of lives and inflict untold suffering on the entire nation.

### Will Take Donations

The Glendale Evening News is prepared to receive contributions for the relief of the Japanese sufferers, and will insure its reaching the relief agencies that are helping to alleviate the suffering of the millions of homeless and hungry people with the utmost dispatch. Acknowledgment of the amounts donated will be made daily, through the columns of The Evening News.

Mrs. H. E. Bartlett, 333 West Broadway, chairman of the Glendale chapter of the Red Cross, is awaiting instructions from the headquarters of the Pacific division of the organization as to what course she and her associates here are to follow, but, pending the receipt of these instructions, Mrs. Bartlett or the treasurer of the chapter, Miss Neva Veysey, 224 South Brand boulevard, at the Glendale Commercial school, will receive any donations of money or supplies that anyone desires to contribute to the relief of the suffering millions in Japan.

The British Museum has over fifty miles of shelving for books.

## 'Hothouse Fancy Cucumbers' Shipped From Glendale To Larger Cities Of America

By H. THOMPSON RICH  
Of The Evening News Staff

**A**MONG Glendale industries whose products go all over the United States, none is more characteristic of the surprising growth of this city than the Davis-Glendale Company, whose twenty acres of fertile land and enormous greenhouses on Fourth street, in the northwest section, supply table delicacies to Milady of Los Angeles, San Francisco, Portland, Seattle, Denver, Chicago, Detroit, New York, Philadelphia, Boston and in fact practically every city in America.

Perhaps the best known product raised by this intensively developed ranch is the "Hothouse Fancy" cucumber. Ranging from eight inches to over two feet in length, and symmetrically shaped, this choice product of the vines is much sought after in the eastern market, where it makes its chief bid for popularity during the winter months.

### Davis From Aurora

The man behind the organization is W. B. Davis, whose large greenhouses at Aurora, Ill., were already famous before 1920, when he established the Glendale branch of his large business. E. H. Florschutz, foreman of the Glendale ranch, who came with the local organization in December of 1920, saw the first cucumber ripen in the big new greenhouse and watched Mr. Davis pick it and send it to a friend.

Many cucumbers have been picked and shipped by the Davis-Glendale company since that date—many millions, in fact. They are packed in special sized boxes, two tiers to the box, a dozen at each end.

The picking season, according to Mr. Florschutz, extends from November 15 to July 15, when the door and the Southern Pacific tracks are less than a half mile distant.

### How Plants Are Raised

The plants are raised in a special plant house, 18x300 feet. When an inch high and showing two leaves, they are transplanted to individual pots. When well rooted and about three inches high, they are again transplanted, this time to the greenhouses, one of which is 56x710 feet, another 72x310 feet.

The staff maintained at the Davis-Glendale ranch during the picking season is over twenty men. It is never at any time less than seven. And two trucks are maintained, while the Pacific Electric line runs right by the door and the Southern Pacific tracks are less than a half mile distant.

The greenhouses are heated by two 75-horsepower steam boilers, gas fueled. They are sprinkled by the Skinner spray system.

### Becoming Pickle Center

Such cucumbers as are not shipped to the high class markets are sold to various pickling works, several of which are located in the San Fernando valley, one of the largest being situated near Zelzah, where twenty-five acres have recently been harvested. The Davis-Glendale company never enters the retail market, selling only to wholesalers and jobbers.

It is understood that the Farm Adviser's office is working for the development of the cucumber raising industry in the San Fernando valley, as, by reason of climatic conditions and location of large pickling works, it is ideally suited for this crop, growers finding a ready market for their produce.

## LEARNS NEWS OF PARENTS' SAFETY

Mrs. Frank Mosher Is Advised  
Father, Mother  
Escape in Jap Horror

Advice received early today by Mrs. Frank Mosher of 118 South Kenwood street, state that, her parents, Dr. and Mrs. James A. B. Scherer of Pasadena and their party of eleven university travel tourists are safe at Nikko, Japan, retreat of the Japanese royalty.

Mrs. Mosher, who was formerly Miss Isabel Scherer, was born in Japan, her father having been a professor in Tokyo university. He is one of the foremost American authorities on the island empire. It is presumed that his party will continue its eleven-months' trip around the world, having arranged to meet other university people in Egypt for a visit to the excavations of the ancient kings.

The radio dispatch advising the relatives here of the party's safety was received by The Los Angeles Times last night.

## Fix Date for School Superintendents' Meet

SACRAMENTO, Sept. 4.—The annual convention of county, city and district school superintendents will be held at the Glenwood Mission Inn, Riverside, beginning October 15, it was announced today by Will C. Wood, state superintendent of public instruction.

## Woman Pleads Case in Auto Theft Charge

MODESTO, Sept. 4.—If Lucille W. Halverson of this city is acquitted of a charge of taking an automobile away from a man at the point of a revolver, it will be a result of her own passionate argument. Miss Halverson acted as her own attorney and conducted her own defense throughout the trial.

## REVISIT SCENES OF EARLY YOUTH

Mr. and Mrs. A. D. Pearce  
Return From Two Months'  
Stay in Michigan

Mr. and Mrs. Albert D. Pearce, of 118 West Lexington drive, have returned from a two months' outing along the shores of Lake Michigan, during which time they visited Lansing, the capital of Michigan and Battle Creek, where a sister of Mrs. Pearce resides.

It was their pleasure to revisit Pentwater high school in that state, where, years before, they had both graduated. Other points visited included the University of Michigan at Ann Arbor, where Mr. Pearce, who is a prominent attorney, received his degree; and the State Normal school, at Ypsilanti, Mich., where Mrs. Pearce graduated.

### Enjoy Outing

During the outing, Mr. and Mrs. Pearce enjoyed a perfect rest, amid the scenes of the past, hunting and fishing along the beautiful lake shore and leading the life of the open.

On the return, they stopped off at Indianapolis, Ind., where Mr. Pearce attended to some business matters.

One of the most pleasing features of the trip was a visit to the Grand Canyon. They spent two days and a night there and, of course, were spellbound by its many and varied beauties. The long trip was made by rail, going via the Union Pacific and returning over the Santa Fe.

### Nothing Like Glendale

"It was a trip we had long wished to make," states Mr. Pearce, "and one that did us a world of good, mentally as well as physically. There is something peculiarly delightful about revisiting places that are dear to the memory. Michigan holds for Mrs. Pearce and myself a unique place in our affections. We both received our educations there, and the years of associations so bred can never be forgotten."

"It is, nevertheless, refreshing to return to Glendale. There is something about this city of ours that baffles analysis. It grows while you turn your back. Even in the two months we were gone, great changes took place. We returned to find an altered skyline, new buildings open for business, others going up, more people. There is nothing like Glendale back east."

## A. J. Mailloux Back From Detroit Visit

Mr. and Mrs. A. J. Mailloux, who, with their children, live at 531 North Central avenue, are back in Glendale after a two months' business trip via rail to Detroit, where Mr. Mailloux has been interested in the city. He reports that in that city and across the border in Windsor, Canada, which is to Detroit what Saint Paul is to Minneapolis, there is a great building boom in progress, with whole blocks of apartments going up. In the Canadian sister city of Detroit, Mr. Mailloux states that Henry Ford is erecting a monster factory, where he will manufacture his cars for the Canadian market.

## Number of Measles Cases Show Increase

SACRAMENTO, Sept. 4.—A sharp increase in the number of cases of measles, whooping cough and scarlet fever, with an equal decrease in the cases of diphtheria and smallpox, is noted by the state board of health in a comparative statement of disease prevalent during the last six months as compared with the last half of 1922.

The number of cases of measles during the six-month period just ended showed an alarming increase over the preceding six months, a total of 19,612 cases having developed during the last half year as opposed to 689 reported in the previous semi-annual statement.

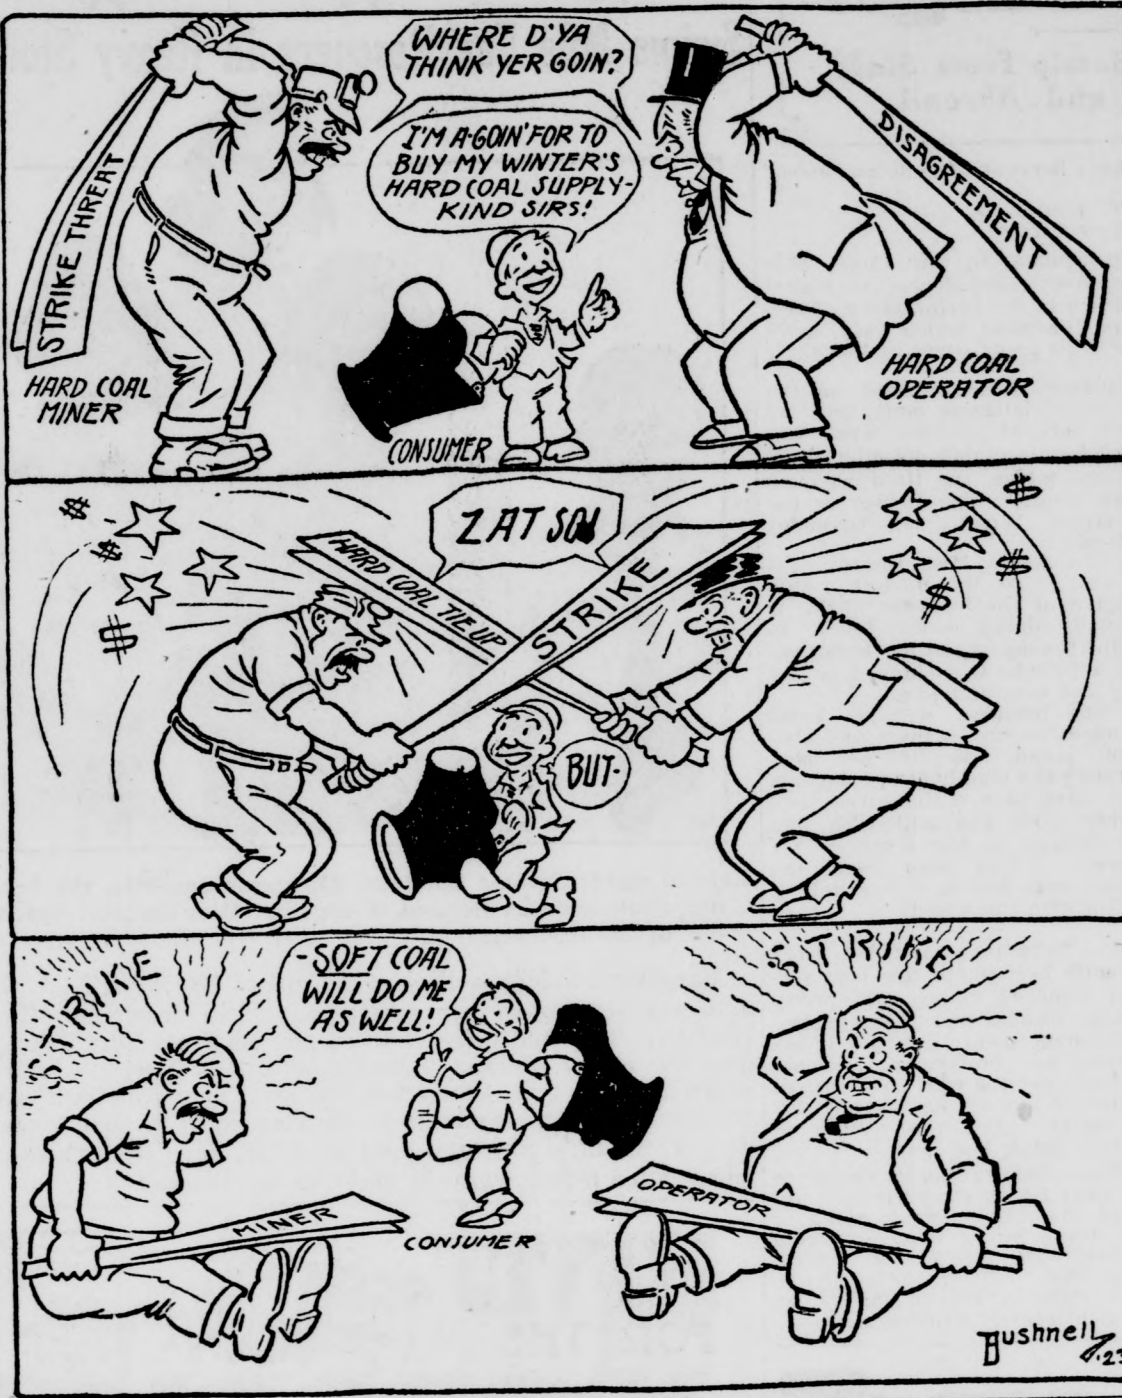

## Dog Bites Thirteen Persons, Is Report

A case of suspected rabies is causing some anxiety at the auto camp grounds on San Fernando road. J. R. Detweiler of Vine street captured a little fox terrier Sunday, after he had been told that the animal had bitten three people at the camp grounds, and he brought the dog to the police station. It was turned over to the care of Dr. Whytock, veterinarian, for observation. Upon investigation at the camp grounds, it was discovered that thirteen people had been bitten by the dog. He is evidently a "tramp," as he is not claimed by anyone in the vicinity.

## Estates Escheated to State Average \$100

SACRAMENTO, Sept. 4.—The average estate of persons dying in California without heirs, is worth less than \$100, according to an estimate made by State Controller Ray L. Riley from estate cases handled during the past year.

## A BIT OF SLAPSTICK COMEDY

## FILM STAR WILL APPEAR AT SHOW

Alice Calhoun Will Present  
Theatre Patrons With  
Her Photographs

Alice Calhoun is to make a personal appearance at the Glendale theatre tonight.

"The Man Next Door" stars this popular player who is beloved by Glendale film fans.

And she is going to give those attending tonight's performances her personally autographed photograph, which is suitable for framing.

All this added pleasure came about as a result of Miss Calhoun having appeared here on several occasions and finding Glendale people receptive to her work.

Nothing like encouragement, you know. So all will be present to give the demure little star the "glad hand."

William A. Howe, the manager, is expecting you to be present.

## Wolverines to Hold Annual Picnic, Rally

All wolverines will rally in Sycamore Grove park, Los Angeles, Saturday, September 15, under the auspices of the Michigan Association of Southern California, according to Dr. M. R. Parmelee, president, who says all the usual features, such as county registers and free coffee, will be among those present, and a brief program, starting at 2 o'clock in the afternoon, is promised to furnish the last word in entertainment.

Tables may be reserved for college, county, town or club reunions, it is announced, by communicating with Dr. Parmelee at Boyle 3205 or with Secretary C. H. Parsons of the Federation of State Societies at 10261.

## Minnesotans to Stage Annual Rally Friday

The Minnesotans are urged to keep up their record of the largest attendance at their social reunions. Friday evening, September 7, is their next date and the big Music Art Hall at 233 S. Broadway is the place. There will be a special program for the fall opening and refreshments will be served.

All the Minnesota folks are urged to be on hand to respond to the roll call.

## Jefferson Co. Folks Plan to Hold Picnic

Former residents of Jefferson county, Colo., and tourists from that county who are now in southern California, will hold a picnic reunion in Bixby park, Long Beach, on Sunday, September 9. Picnic lunch at noon. It is planned to form a permanent organization to arrange for future gatherings.

## Mail Is Injured in Fire in Liner's Hold

MANILA, Sept. 4.—As the result of a fire in the hold of trans-Pacific liner Admiral E. R. Grant, which arrived here from Kobe, Japan, 1,900 sacks of mail included in the cargo were badly water-soaked and charred. All first-class mail in the total consignment of 2,600 bags was saved, but second-class and parcel-post pouches were virtually destroyed.

## Coolidge Boys Settle In White House Home

WASHINGTON, Sept. 4.—Children were back under the homey roof of the White House yesterday for the first time since Theodore Roosevelt's family departed. John and Calvin Coolidge, sons of the new president, were busy "getting established" in their new home. They arrived in the capital from spending the summer in New England.

## ROUGH ROADS ON YOSEMITE ROUTE

Dr. Albert Vack Encounters  
Hard Riding During  
Trip to Park

The strength and stability of the Nash car were conclusively proven in a trip to Yosemite that has just been completed by Dr. and Mrs. Albert Vack, 105 South Maryland, who are back in Glendale after covering 1117 miles over some of the hardest roads in the state and who are loud in their praise of the stamina and power shown by their Nash Four Door Coupe, that came through without calling for any expenditure for repairs or without a single puncture.

Dr. and Mrs. Vack left Glendale at 4 a. m. August 18, reaching Fish Camp that night at 10 o'clock, after covering 313 miles. Leaving Fish Camp the next morning they reached Yosemite after four hours driving over roads that called for unceasing vigilance every minute to avoid accidents and broken springs, as the chuck holes were deep and frequent and the road was steep and tortuous every foot of the way.

After spending several days in Yosemite they left via the Oak Flat road, staying as guests on a friend's ranch at Riverbank for several days before going on to Monterey Bay to fish and enjoy the natural beauties of that region.

### Use 59 Gallons

On the 1117 miles the car used 59 gallons of gasoline, practically 19 miles to the gallon over roads that taxed the car to the limit and up grades that called for every ounce of power the engine could deliver. Two quarts of oil were consumed on the trip.

The Nash coupe is the fifth car Dr. Vack has owned and he is convinced that it is by far the best automobile he has yet driven.

The Glendale Nash Company, Inc., 112 South Maryland, local distributors for the car, are citing the record shown by Dr. Vack's car as only one more argument in support of the claims that are being made as to the car's worth.

## Prospector Digs Up Platinum Worth \$1000

CHICO, Sept. 4.—A lump of platinum valued at more than \$1000 and said to be the first of its kind, was found in Siskiyou county recently by J. W. Stevenson and has been deposited in a local bank.

## The Great Gateway of the Pacific-Southwest

**L**OS ANGELES HARBOR is an inestimable asset to the entire Pacific-Southwest. Last year it had commerce with fifty-nine foreign countries to the extent of 10,100,000 tons. It is at present second only to New York in inter-coastal trade and the monthly tonnage handled averages 2,500,000. It leads the world in the export of petroleum and the import of lumber.

The Harbor is broadening the agricultural markets of the district and is largely responsible for the industrial expansion now taking place.

The Pacific-Southwest banking system, working in close co-operation with agricultural and industrial sections of the Pacific-Southwest, is able, through its branches in the Harbor cities, San Pedro, Long Beach and Wilmington, to watch water shipments in and out of the territory—thus affording a real service to commercial enterprises.

## Daily NewsLetter

General News and Gossip from Staff Writers at Home and Abroad.

TODAY—The Day Time Wives, Inc.; Servant Girls Scorn "Jobs."

By GEORGE T. HOOK  
For International News Service

NEW YORK, Sept. 4.—Hair-raising in its purpose and breath-taking in its modernity comes Dayton Wives, Inc., to solve one of the problems of the business man, and perhaps make him less tired—mayhap to the box office sorrow of stage attractions that "delight the eye and please the ear," and which were born when the tired business man became a national figure that had to be resuscitated if the country were to be saved from industrial chaos.

If you've never heard of Dayton Wives, Inc., and you don't know its reason for being, then you miss out on the remarkable fact that this organization is responsible for the world being gifted with another "triple entente," one in which two of the unsignatory "powers" go to make the life of the third—in this case the business man—complete at home and the office. The other two "powers" are the working girls, or Daytime Wives, and, as they would have it, the real wives of their employers.

The purpose of Daytime Wives, Inc., is beautifully explained by Miss Paula Gould, acting president of this young organization. "Our principal reason for being," Miss Gould said, "is to help our employers win their fight for success by bringing a little bit of home into their offices; a little bit of home, such as darning socks, sewing on buttons and attending to their shopping. Literally, being their wives in daytime. But, in addition to this, the organization is striving to uplift conditions among working women and improve morals. The members are

honor-bound to give their male employers that degree of honest service in the performance of certain functions which they never get from their wives at home.

Which is rather hard on the wives of business men, isn't it? And sort of answers what has long been a cryptic question, i. e., "What makes the tired business man tired?" The answer of the Daytime Wives is: Orthodox wives.

"We feel," Miss Gould continued, "that the modern young woman of the business world is actually doing more today to shape the destiny of her boss than his wife, who is cushioned in luxury and ease at home.

"The business woman, keen-minded, energetic, loyal and efficient, stands alongside her boss through the long hours of the day, and often in a stuffy office, and fights tooth and nail with him for victory in the struggle for success. How long would the petted wife last in this grueling battle with the world?"

A Norwegian-American liner recently brought to this port several hundred young and pretty female Swedes and Norwegians. Announcement of the influx perked up employment agencies which, since the war, have battled valiantly against dearth of servant girls. But the feeling of elation didn't last long.

From their temporary residence on Ellis Island the girls sent out word that they weren't going to soil their pretty hands working as household "help." No, indeed, they said. They preferred to find work in beauty parlors, as manicurists or hairdressers.

Of course you recall how the Hooligan gang planned to hitch Billy to a cart.

"That is just the thing! We will fit the harness to the Billy goat, all get in the box and have a ride, for he is a strong goat that he can pull us all easily. Then we will get laths and stick nails in the ends to prod him with," and they all laughed at the discomfort in store for Billy, and the sport that this would afford them.

"We will have to wait until Mrs. McDermott goes out for the day

## WHO'S WHO IN THE DAYS NEWS

REP. JOHN E. RAKER  
The ranking Democrat on the house immigration committee is now in Europe, studying at first hand the Continent end of the immigration problem. He is Representative John E. Raker of California.

Raker has had an interesting career. He was born on a farm near Knoxville, Kon county, Ill., Feb. 2, 1863. When he was ten he moved to Leavenworth, Kan., and eventually became a member of the firm, Spencer and Raker. He gained nationwide fame as a lawyer when he served as attorney for the defense in the famous Modoc lynching case. Twenty-one men were indicted on five separate murder charges. The trial lasted five months. All were discharged.

He served four years as district attorney of Modoc county, was twice elected judge of superior court for Modoc county and served as delegate to many state and national Democratic conventions. He entered congress the first time as a representative for the sixty-seventh session and has served ever since. He was re-elected to the sixty-seventh congress without opposition.

## Pacific Northwest Polo Tournament Planned

SAN FRANCISCO, Sept. 4.—The Pacific Northwest Polo tournament will be held at Vancouver Barracks, Washington, October 4 to 14, inclusive, it was announced here today. Teams from the Seventh Infantry, Tenth Field Artillery, Special troops, Third Division and the Oregon Agricultural college will participate.

## LITTLE HEROINE SAVES FOUR Swims Mile For Rescuers In Heavy Storm

Left to right: Jerome Candella, Margaret Candella, the heroine; Philomena Castle, and, in the rear, Miss Caroline Sparne, one of the teachers.

Margaret Candella, a 12-year-old girl of Brooklyn, N. Y., by a daring feat saved her companions from drowning. Two school teachers and three children put out from Fort Salonga into the waters of Long Island Sound, New York. A storm overtook them and the twelve-foot skiff in which they were rowing became a plaything of the elements. Realizing their danger, the little girl, Margaret Candella, dove from the boat and swam a mile toward the shore to summon aid.

## HINTS FOR THE MOTORIST

ALBERT L. CLOUGH  
Editor Motor Service Bureau Review of Reviews

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

Copyright, 1923, by the International Syndicate.

Do you know how many strainers there are concealed within your car, where each one of them is and how they can be gotten at for cleaning? These strainers or screens, so long as they are intact, are faithful safeguards, preventing solid impurities in the gasoline from reaching the minute passages in the carburetor, obstructing them and thus stopping the engine by cutting off its fuel supply, while the function of the strainer in the engine lubrication system is to prevent solid matter, either introduced with the oil or work from the moving parts, from clogging oil passages or getting into engine bearings and cutting them. The more work these strainers have to do, the sooner they require attention, for, if there is considerable dirt in the gasoline, it soon fills up the tiny holes in the fine copper gauze, of which the strainer screen is made, and then gasoline can no longer flow to supply the engine. Usual practice is to locate one strainer in the top of the vacuum-tank, where the draft-pipe from the main tank enters and another in the carburetor bowl at the point of connection of the supply pipe from the vacuum tank. Both of them are usually removable by uncoupling the gasoline pipe involved and screwing out the fitting which encloses the strainer. In some fuel systems a combination strainer and settling pocket is provided in the gasoline pipe, somewhere between the main tank and the engine compartment, consisting of a fitting which screws out and carries with it or at least exposes the screen. The settling pocket or sediment bulb catches water and heavy solid particles and requires emptying whenever the strainer is cleaned. All strainers require cleaning about every 1,000 miles and great care should be taken not to break the wire mesh, as a strainer without even a small hole in it is no good at all. If removable, shaking the

screen around in a can of gasoline and brushing it is the best way to clean it. Prodding the gauze with a sharp tool is almost sure to break it. Strainers that cannot be removed can be cleaned by hooking the dirt off their surfaces, with a piece of small wire, or sometimes by forcing liquid through them in the direction opposite to the normal flow. The oil filtering screen around the pump intake, in the crank-case, requires cleaning each time oil is changed as, if neglected, the flow through it becomes less than that required to keep the pump full and oil circulation will become inadequate.

**TIRE INFLATION PRESSURE**  
M. E. asks: Is it really so important as some seem to think it, to keep tires always pumped up to the pressure recommended for them?

Answer: Generally speaking, tires give out either from the failure of the material which

forms their side walls, resulting from its continuously repeated bending under load, or else from the wearing off of the tread and the wearing through of the carcass. The lower the inflation pressure, the more abrupt bending the side walls receive and the earlier they fall from the first mentioned cause. Full inflation may thus be very important on grounds of economy, both of tires and fuel, but if riding comfort, rather than extreme economy is the main object sought, there is good reason for running tires somewhat softer than recommended. In order to obtain greater shock-absorbing effects. When good, rugged tires can be bought at reasonable prices, we personally believe in

## Uncle Wiggily Bedtime Stories

— BY HOWARD R. GARIS —

UNCLE WIGGILY AND THE APPLE BUG  
Uncle Wiggily hopped down off the front steps of his hollow stump bungalow. The rabbit gentleman twinkled his pink nose once or twice and then said to Nurse Jane Fuzzy Wuzzy: "I am going adventuring!" "I thought that," answered the muskrat lady housekeeper. "Well, I hope you have a jolly one."

"Thank you," politely said the rabbit uncle. "And is there anything you would like to have me bring back for you when I return from adventuring, Nurse Jane?" Miss Fuzzy Wuzzy thought for a moment and then she replied: "Please bring me back an apple and I will make an apple pie."

"It shall be done!" exclaimed Mr. Longears, and away he hopped over the fields and through the woods.

He had gone perhaps a mile, or maybe a mile and a half or even two miles, for all I know, when all of a sudden the rabbit uncle came to a tree on which grew some red-cheeked apples.

"Ah! just what Nurse Jane wanted!" thought Mr. Longears. "I'll pick the largest, ripest apple I can find and take it to Nurse Jane so she can make an apple pie. I'm very fond of apple pie."

The bunny rabbit gentleman stood up on his tiptoes and, reaching high above his head, picked off an apple. He looked at it, rubbed and polished it on his soft fur until it shone like a new automobile, and then Uncle Wiggily hopped along again.

"I hope I soon find an adventure," he said to himself, and he did. For he had not taken more than three hops and part of another one before, all of a sudden, out from behind a sassafras tree jumped the Fuzzy Fox.

"Good day!" said the Fuzzy Fox, pretending to be polite, though he was far from that. "Good day!"

"I guess it's a bad day for me," thought Uncle Wiggily, as he looked at the hungry teeth of the Fox.

"Where are you going?" asked the Fox in his bristly growly voice. "Where are you going, Uncle Wiggily?"

"I was going adventuring," the rabbit gentleman answered.

"Then you need go no farther," said the Fox, "for you have met with an adventure right now. I am your adventure and I am going to nibble your ears."

"Wiggily, I suppose so," sighed Uncle Wiggily, sort of rubbing Nurse Jane's apple up against his leg to polish it brighter.

"But I'm going to nibble them right away," laughed the Fox. "I am going to walk along beside you until we meet my friend, the Woolly Wolf. He, also, wants to nibble your ears. So come along!"

Then the Fox walked beside Uncle Wiggily, who carried in one paw the apple he had picked for Nurse Jane.

Now, though neither the Fox nor Uncle Wiggily knew it, there was, inside the apple, a funny Apple bug. This bug had eaten a

"skipping" a little on the inflation pressure, so as to secure better riding qualities, but this does not mean a recommendation for keeping tires soft and "mushy."

**ENGINE LEAKS OIL**  
C. E. J. asks: What causes the oil to leak out of the oil pan of my Ford car? When it has been standing for some time,

there is a pool of it under the engine. Can it be that the valves are leaking?

Answer: By watching from underneath, you can probably find out where the oil drips from. Try this just after the engine has been stopped, while the oil is warm. Most likely the leak is at one of the gaskets, either that between the inspection-plate on the bottom of the crankcase and the crankcase itself or that between the upper and the lower crankcase sections. If tightening the bolts at these two places, does not stop any leak there, you better put in new gaskets. Possibly oil may leak past the cover of the timing-gear case or even out around the transmission cover.

You better be sure that the crankcase drain-plug is in tight and that there is no escape around or through the try-cocks, which indicate the oil-level.

EDNA KENT FORBES

**DIET FOR CHILDREN AND ADULTS—(Continued)**

**Diet in Fevers—No. II**

Yesterday I told you the old-fashioned idea that in illness—especially if prolonged—we must eat to "keep up the strength" is really the right idea, but that the foods must be of such a nature that there is no tax upon the vital organs. I told you that we must have—

First: Energy food in the most easily digestible form. If the fever is prolonged we must also think of the protein needs.

Second: Vitamins.

Third: Mineral salts in good proportions, for there is a great loss of these in fevers—iron and calcium particularly. These are really the same things that are needed in health, you see, but in fevers we have to give more thought to the form in which these foods are given.

The energy foods are fats and carbohydrates particularly. Protein also can be used as the energy food, but fats and protein are not well cared for when the system is deranged. So the fats and proteins must be strictly limited, and the simple, easily digested carbohydrates given. The best forms of carbohydrates are—

First: Fruit juices, fruit purees, fruit soups.

Second: Vegetable purees (especially of spinach, for its iron and calcium), and vegetable broths.

Third: Gruels, sweetened with malt sugar (it contains iron, calcium and vitamins) or milk sugar.

Fourth: Milk, buttermilk, koumiss and other fermentative milks and wheys.

The fruit juices and vegetables should be given for the short fevers. Then, because of the need for more protein, the gruels and milk should be added.

How much should our fever patients have of these? As many calories as though he were well and engaged in moderate activity.

Kellogg says this, and there is no physician in the United States who has had a longer and more extensive experience in treating disease than he has had. Many other experts agree with him.

Fruit juices are very important in feeding the sick, for many reasons—

First: They are well liked, usually.

Second: They contain a large amount of water.

**SMART AND BUSINESSLIKE**

One does not have to give up style for business when one wears this stylish skirt and blouse, because style and business agree perfectly. Havana brown crepe satin is used for the blouse, which is fitted to a straight band over the hips and trimmed with braid in self-color. The skirt is of brown novelty tweed finished with fringe. The front and lower edges may be hemmed, if preferred. For the blouse, medium size requires 2 1/4 yards of 36-inch material; for the skirt, 1 1/2 yards 44-inch material.

**Pictorial Review Dress No. 1538.** Sizes, 14 to 20 years, and 34 to 44 inches bust. Price, 35 cents.

Wood suitable for skis is growing scarce in Switzerland, which supplies many of the winter gliders to Europe.

**ANSWERED LETTERS**

**A Stenog.**—Indigestion may be responsible for your offensive breath, but whatever is the cause it must be cured in order for you to overcome the unpleasantness. In the meantime brush your teeth with peppermint water and use any of the many good antiseptic mouth washes recommended for keeping the gums in a healthy condition.

**M. E. M.**—If you are overweight, reduce to normal which will lessen the size of the bust. If this is not the case, dress so the bust is less noticeable, which is the only safe way of handling the situation. Wear your corsets so they are quite loose for a few inches over the waistline. This lessens the apparent size of the bust.

**Y.**—Whiteheads are the result of your excessively oily skin. They will disappear as you correct this condition. Eat less of all the rich foods, especially those containing oil; and drink plenty of water between meals. Bathe the face in warm water, and after drying it, apply either witch hazel or a very weak solution of benzoic acid.

**Ellen.**—Consult a dermatologist about the moles that are increasing over the face and neck.

**Curious.**—Bobbed hair continues in favor, and for a young woman who must accomplish so much with your time, the style is advisable, especially as you say it is very becoming. The only way to prevent sunburn is to protect the skin from the sun. A heavy coating of powder or a veil worn while there is exposure will help somewhat. Cucumber juice makes a good bleach at this season. A sluggish liver or faulty elimination will cause the hands to redden.

**Teddy.**—If you use henna in the shampoo, it will give your hair the bright tint that you say has left it recently. As this reddish tinge is natural to you, the loss of it now would indicate that your scalp needs some treatment. Nothing helps so much in such cases as a daily vigorous massage. This will tend to increase the circulation, and with a healthy supply of blood, all conditions are improved. The henna is not a dye but it gives a reddish tint while it also has tonic properties. If you need fuller directions for using it, I will be glad to mail them on receipt of a stamped self-addressed envelope.

**R. C. K.**—To increase your weight drink plenty of milk, beginning with one quart each day, increasing the amount as your digestion becomes accustomed to it, even up to four quarts.

**Anna P.**—If the small brown spots on your face and arms are moles, they can easily be removed by a process of implantation by any good dermatologist. If they are freckles, bleach them yourself with the juice from cucumbers.

**Peggy K.**—Advice to "A Stenog," answers your question about the breath. Remove the excessive oil from the hair by rubbing it with towels, just as if you were drying it after a shampoo. The only thing to do with brows that have been plucked is to bear with them until hair grows out again.

**Tomorrow.**—After The Holidays

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, stamped and self-addressed envelope must be enclosed with the question.—The Editor.

**Bride:** "Have you a recipe for Magic Pie Crust?"

**Answer:** A reader of this column, J. B., has kindly sent me one in "Magic Pie Crust: Warm a mixing bowl by pouring hot water into it; let stand two minutes, then empty it. Put into the bowl one cup of shortening and pour one-half cup of boiling water onto it; beat with a fork till it becomes a smooth liquid. Now sift together three cups of flour, one-half teaspoon of salt and one-half teaspoon of baking powder and add this to the shortening liquid. Stir well together, and turn out onto a bread board. Roll out thin. This recipe makes two pies (four crusts). If only one pie is desired wrap the remaining dough in waxed paper and put it in the ice box, where it will keep for several days."

**Mrs. I. R.**—"How can I clean embroidery on goods which will not wash?"

**Answer:**—One way is to apply gasoline with a cloth. But a way which I have recently heard about yet never tried, is the following: Cover the embroidery with a thick paste of powdered French chalk and alcohol, mixed, and lay a piece of clean muslin over it; then roll up the goods like a jelly roll, place in a dark place for several days, or until the alcohol has evaporated entirely, unroll, and brush off the dry chalk. Try this method on a corner of some embroidered article which you do not care particularly about, before using it for cleaning a more cherished article. It is always wise to experiment in this way, before going ahead to cleanse anything one values.

**Old Housekeeper.**—"It seems as if I'd never cease to learn new things about housekeeping—though I have been a housekeeper for almost sixty years. Here is my latest discovery: a pretty good substitute for linoleum can be made by tacking an old Brussels carpet onto the floor, wrong-side-up, and then giving it two coats of good floor paint twenty-four hours apart. Finish with a coat or two of spar (waterproof) varnish. This idea has saved me from buying new linoleum for my kitchen floor—which I could not afford to buy."

**Answer:**—I am sure that a good many of our Column Readers will try this excellent hint. Thank you for it, and write again if you can help us further!

**Miss F.**—"Is there anything that one can do to keep a jelly roll from cracking during the rolling process?"

**Answer:**—Yes. Turn the thin sheet of cake out of its baking pan onto a cloth wrung out of cold water, then spread with jelly. As it is rolled, the steam from the wet cloth will prevent the shrinking, and consequently cracking, of the top crust.

**Tomorrow.**—Dainties to Serve in the Tea Tray.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn.

## Heart and Home Problems

**Dear Mrs. Thompson:**—I am a young married woman, 19 years old. I have two small boys, one 2 years old and one 2 months old. My husband never takes me any place, and he won't keep the babies for me to go. He just wants me to stay home day and night.

He is talking to another woman. He has met her in the house with his mother, but he doesn't want me to bother with her. What would you advise me to do? He never gives me money to spend. My mother dresses me and the babies.

**YOURS TRULY.**

Your situation seems pretty hopeless. Since your mother dresses you and the babies, she might be glad to have you come home where you will be free from the unhappiness caused by the way your husband is acting. If you secured a position, you could help your mother with the expenses, and would probably be happier than to remain with your husband in the home of your mother-in-law. When your husband sees that you are not dependent on him, he may change and do the fair thing. Do not return to him unless he is willing to start housekeeping by yourselves, and promises to give you an allowance for clothes every month.

**Dear Mrs. Thompson:**—I am a young girl of 13, and am in high school. I have been receiving letters from a boy friend who is away visiting. I have a very close friend who is an old lady, and she does not think it right for me to correspond with this boy. He is a very nice "kid" and does not write mushy letters. Would you advise me to stop writing to him?

How long should I wait before answering one of his letters?

**CURIOSITY.**

There is nothing wrong in letter writing between boys and girls if it is done in the right way. Let your mother read the letters you receive and send, and I am sure there would be nothing wrong in the correspondence. Write every two or three weeks, if you want to. I would not advise a more extensive correspondence, because your interest would soon die out.

**Dear Mrs. Thompson:**—We are two blondes, 16 and 17. Is it proper to invite a boy friend to our home?

If so, how should we extend the invitation?

How should we entertain boys?

**TWO BLONDES.**

It is proper to invite a boy to your home, but it is hardly necessary. When a boy is interested in a girl, he asks to call. When you extend the invitation, merely tell the boy that you would like to have him come to see you some time. If he is interested in you, he will ask when he may come.

There are various ways of entertaining. Some young people find conversation enough. Others play two-handed card games, or other interesting games. Music is a great help in entertaining. Candy making also helps to pass the time agreeably.

**Dear Mrs. Thompson:**—I am anxious to know how to paint grasses and wild flowers for winter bouquets, but have been unable to find anyone who can tell me how. I am wondering if you can tell me how it is done.

I would also like to know if you can tell me what to use to remove ink from a colored gingham without fading the colors. It is not a few drops, but a large quantity of ink which was spilled.

**A. T.**

Go to any paint store where they sell the vari-colored bronze paints and they will explain the process.

To remove ink from a colored gingham apply spirits of turpentine to the spot, or, better still, ask your druggist for a chemical that will do the work without injuring the fabric.

**A. T.**

**Peace, Prosperity in Labor, Davis Claims**

BIRMINGHAM, Ala., Sept. 4.—Labor day of 1923 finds the working men and women of America at the close of twelve months of steady progress of peace and prosperity. Secretary of Labor James J. Davis declared upon his arrival here yesterday to make a Labor day address.

"Probably no year in our national history has been marked by greater strides toward prosperity," the labor secretary said.

"Everywhere except in the United States there is political or economic chaos, and it is only in this country that the employer and workmen are moving steadily forward in industrial peace and prosperity. Abroad, unemployment is general, while in this country there is a job for every man who is able and willing to work. Abroad, wages are low and in some countries workers are receiving a mere subsistence wage. Here wages are generally as high as we ever knew them.

"American labor has completed a happy and successful year. It faces another period of peace and prosperity toward which it should move with amity and co-operation."

While declining to comment upon the anthracite coal strike Secretary Davis said he believed some solution of the problem

**Cost of Living Bonus In Denmark Reduced**

A consular report from Copenhagen issued recently states that a law had been passed providing for a total reduction of 10,770,000 kroner (about \$2,886,360 par) in the cost of living bonus of government employees, in the course of the fiscal years 1923-24 and 1924-25. In 1922 the total amount paid in cost of living bonus for government employees was about 35,000,000 kroner or about \$9,330,000 par.

would be worked out by Governor Pinchot.

**COUGHS DISTURB SCHOOL WORK**

School teachers should give the same advice to children who have coughs as did this Florida teacher. "I recommend FOLEY'S HONEY AND TAR to the children in my school who had the 'flu' and good results came whenever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida. Foley's Honey and Tar contains no opiates. Ingredients printed on the wrapper. Quickly relieves colds, coughs and croup.

### Portland Man Named As Fraternity Head

SACRAMENTO, Sept. 4.—The national convention of the Pi Delta Kappa fraternity, which closed here yesterday, elected Conrad Roth of Portland, Ore., as grand president of the order. Portland was selected as the 1924 convention city. Other officers elected follow:

Floyd Askew, Oklahoma City, Okla., grand vice-president; Leonard Lathrop, Berkeley, secretary;

Joseph Holub, Chico, treasurer; Linn Pryer, Oklahoma City, historian; Dwight Stephenson, Sacramento, grand guard, and A. H. Major, Jr., St. Louis, Mo., grand master of ceremonies.

### MINOR OPERATION

A minor operation was performed upon Mrs. A. J. Edwards of 1203 Exira street, Eagle Rock, yesterday, at the Glendale Sanitarium and Hospital.

About 70 per cent of world's output of vanadium is produced in Peru.

### Devil Is Described By Pastor in Talk

"The Devil" was the subject of a biographical sketch Sunday night at the Gospel tabernacle of the Christian and Missionary alliance.

"The devil of Christendom is a myth pure and simple," asserted Rev. C. H. Chrisman. "The idea of horns and hoofs and forked tail is handed down from tradition and has no support in the Bible. The devil is a person. He possessed intelligence, memory, will, knowledge, executive ability and power of speech. Personal names are given to him and personal acts are ascribed to him. Originally, he was Lucifer, the Son of the Morning, a shining archangel. His heart was lifted up with pride and he fell from his proud estate. He was an epitome of perfection; he was full of wisdom and perfect in beauty. For some mysterious reason, he rebelled against the government of heaven and was cast out. Such is the origin of the devil.

"Satan's supreme endeavor now is to minimize sin, humanize God and defy man."

### Week's Program for Church Work Outlined

The Nazarene church had as its preacher Sunday afternoon Miss Jessie Hathaway of Tuluca.

A song and testimonial service preceded the evening sermon by Rev. Henry Scheideman. Two young women from Pasadena told how they had received the call to preach the gospel.

The following is the program

### Individuals Must Bear Own Responsibilities

"Individual Responsibility" was the theme of the sermon Sunday morning at the Congregational church.

"There is an individuality of responsibility," said Rev. C. M. Calderwood. "We have to bear our own burdens. There is something singular and incommunicable about each individual lot. Our personalities are unique. We have different constitutions, affections, repulsions, callings and obligations.

"The Apostle Paul says that we must accept our individual responsibilities. Some people think that we are wholly the victim of necessity, creatures of accident. We must not identify ourselves so closely with nature as to make her responsible for our conduct. There are some burdens that we can lay on nature but we have a mysterious burden that nature cannot carry.

"We cannot shift all the responsibility for our salvation upon the church. The church can and should help us but there are responsibilities upon the individual soul. Our whole salvation must be worked out in personal thought, patience, faith and sacrifice."

for the week: Tuesday night, prayer meeting at the church. Wednesday night, special service at the Community Auto Camp, 526 South San Fernando road. Friday night, meeting at the home of Ira Blake, 1431 Rock Glen road.

Valuable medicinal plants are cultivated in Peru.

### Christ Offers Only Relief for Humanity

"Relief for a weary, tired, suffering humanity is beyond the reach of money," commented Rev. L. J. Millikan Sunday morning at 610 East Broadway in his sermon before the congregation of the Broadway Methodist church.

"Only by looking to Jesus can it be obtained," he continued. "And its promise is not to our bodies, but to our souls. Jesus, the humble, the meek, the lowly, too poor to possess even a home, invites us to become co-workers with Him. We are to go when and where He goes, to pull when He pulls, to be yoked up together with Him.

"He is our great teacher and we are His pupils, but, until we throw open wide the doors of suffering and sacrifice with Him, we cannot begin to learn nor can we have fellowship with Jesus Christ—which is the greatest privilege in the universe."

Friends of the pastor attended the communion service from both Long Beach and Los Angeles. One of them, Charles E. Cook, Jr., received the service of baptism.

The Epworth League met at 1124 East Wilson avenue in the home of Miss Dale Smith.

### RETURNS TO HOME

Mrs. William Campbell has returned to her home at 601 Myrtle street following a recent operation at the Glendale Research Hospital.

Wool is an important agricultural export of Iceland, much of it being woven into blankets in America.

Machines

—Every machine in this sale is brand new—latest style, newly arrived from the factory, and fully guaranteed by the manufacturer and ourselves.

—You pay for a Coffield anyway, in wear and tear on yourself, your clothes, or in laundry bills, so it is hardly fair that you should keep your present out-of-date method when other women have a Coffield to help them.

DON'T DELAY

—Call, or mail the coupon, or call at the store before it is too late.

Phone Glendale 490

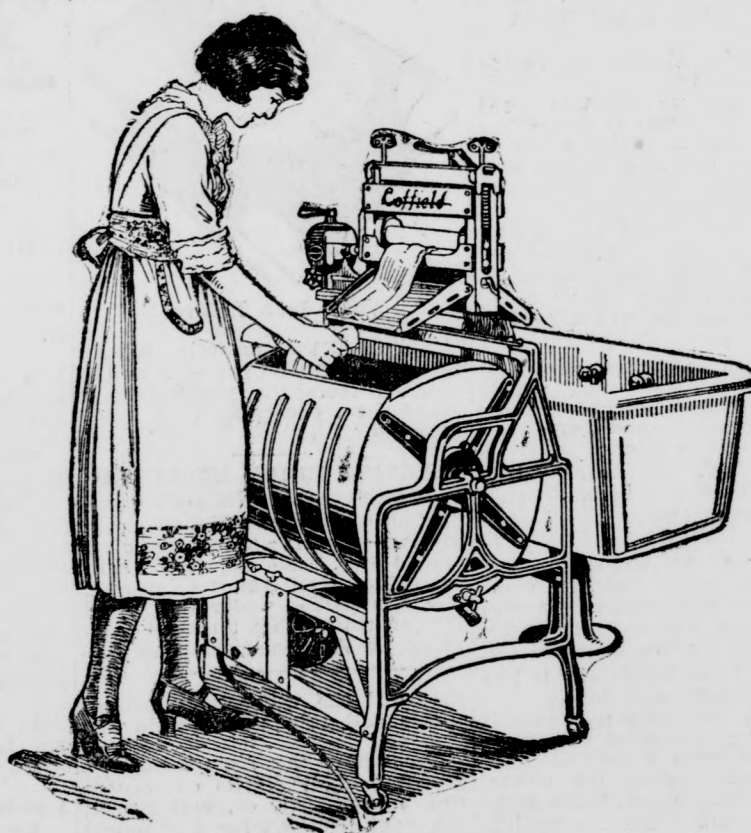

—For just 21 days—beginning Monday and closing sharply Saturday, you may avail yourself of terms so absurdly low that you are simply cheating yourself if you submit to another day of washday drudgery.

—This is the first time in our history that a direct factory arrangement has made possible our determination to put the COFFIELD within the reach of every home.

—Yes, it's true—we will deliver a famous

**Coffield**  
ELECTRIC WASHER

—and help you with your next washing. If you agree it makes the prettiest, whitest clothes that ever came out of suds, you may begin owning it by paying only \$2.95 per week. The COFFIELD is the famous washer you have heard so much about—with the touch o'thumb water shutter and patented stationary drain boards. Note the big Copper Tub.

### RIDERS DASHING OVER OLD TRAIL

Pony Express Route Followed by Participants in California Celebration

By S. M. HOLLAND  
For International News Service  
SAN FRANCISCO, Sept. 4.—

Eyes of the west today were following the pony express of 1923. The romance and adventure of 1860 were being vividly revived as relay after relay of horsemen were passing on and on United States mail pouches containing, among other letters, President Coolidge's message to California and congratulatory messages from governors along the pony express route expressing best wishes to the Golden State on the occasion of the anniversary celebration of its admission to the Union.

Arrival of the last express rider in San Francisco on September 9 will mark the beginning of the California admission day memorial ceremonies.

Leave St. Joseph  
The first pony express dashed out of St. Joseph, Mo., original terminal of the fast mail of 1860, last Thursday. The route being traveled is the same one that the adventurous horsemen of another day used in their famous transcontinental mail service.

From St. Joseph, Mo., the route goes 2100 miles through to Topeka and Leavenworth, Kan.; Denver, Salt Lake City, Reno, Sacramento, Stockton, Livermore, Mission San Jose, to San Francisco.

Arrival in San Francisco is scheduled to take place at 2 p. m. September 9, California's seventy-third anniversary of statehood.

Ahead of Schedule  
Today the 1923 pony express relay is galloping along the stretch between Limon, Colo., and Denver, at least two hours ahead of the schedule set by the pioneers. Enthusiastic reception is being accorded the riders at every point through which they pass.

A great festival will mark the end of the trail on Admission day, September 9. Among other features is the presence in San Francisco bay of forty-eight ships of the Pacific fleet, including super-dreadnaughts, destroyers and submarine chasers, which will boom out an official salute of thirteen guns the moment the last pony express rider reaches this city.

### Rasmus Closes Series Of Vacation Sermons

Dr. Henry I. Rasmus Sunday morning closed his series of post-vacation sermons at the First Methodist church. "With Jesus in the Desert" was the subject of the closing sermon.

"The desert is a strange place in which to be invited to rest," commented Rev. Rasmus. "You cannot utter the word desert without a whole volume of appalling horror passing before your vision: blistering heat, desolation, death. That is the story of the desert."

"But it was not into such a desert that Jesus invited His disciples to rest. It was into a secluded spot back of where stood Bethsaida upon the shores of Galilee.

"This invitation was a call to physical rest. If we could understand it fully, we would know that nature herself is growing tired. Man also is sad and weary. From the cradle to the grave, the one cry is: 'I am tired!'

"What man needs is not rest from work but rest in work. Jesus' pledge to humanity is that He will give it nothing less than that."

Winters are comparatively mild in Argentina except in the extreme southern part.

### Americans Offer Aid To Stricken Japs

WASHINGTON, Sept. 4.—While press dispatches steadily added new sorrows to the horrible catastrophe that was visited upon Japan, the United States government and the Red Cross took every step toward relief of the stricken nation.

The American fleet in Asiatic waters, comprising some fifty vessels, has been placed at the disposal of Japanese marine authorities by Admiral A. E. Anderson, commanding.

While the navy was taking this step, officials of the American Red Cross announced they had received carte blanche authorization to render the most complete relief possible under the circumstances.

### Mammoth Fruit Train Hauls Fancy Products

MARYSVILLE, Sept. 4.—Believed to be the largest fruit train ever made up, a train of 87 cars, each packed with choice fruits, has left here for San Jose. Most of the fruit included in the mammoth shipment was raised in Sutter and Yuba counties.
